SHED SKIN 20 TIMES

My little boy broke out with an itching rash. I tried three doctors and medical college but he kept getting worse. *There was not one square inch of skin on his whole body unaffected.* He was one mass of sores, and the stench was frightful. In removing the bandages they would take the skin with them, and the poor child's screams were heart-breaking. After the second application of CUTICURA (ointment) *I saw signs of improvement*, and the sores to dry up. His skin peeled off twenty times, but now *he is entirely cured.*

A SPANISH ROMANCE

Dewey Had No Battle With Rebels at Manila.

Navy Department Gives Story No Credence.

Insurgents Have Nothing to be Called a Navy.

Spanish Hope to Profit From the Report --General Otis Cables That All is Well in the Philippines.

WASHINGTON, Oct. 20.—The sensational Spanish report of a naval battle between Admiral Dewey's vessels and the insurgent navy in the Philippines is received with absolute incredulity in both the navy and war departments. If there has been any recent action, Admiral Dewey has failed to mention it, and neither General Otis nor United States Consul Williams have regarded it as worthy of notice

ORIGIN OF THE STORY.

It is believed at the navy department that the Spanish authorities refer to the seizure of the little steamer Abbey by the McCulloch on September 23 last. This steamer was of American register though formerly known as the Pasig. It was reported to Admiral Dewey that she was bringing arms and supplies of war to the insurgents. He sent the McCulloch to stop this movement but when the cutter found the Abby in Batanzas bay the latter vessel had landed her cargo of arms, and the insurgents refused to give them up.

Thereupon the Abby was seized and taken by the McCulloch to Manila. This affair could not be dignified with the name of a naval engagement and Admiral Dewey in reporting the seizure to the navy department made little of it.

It is just possible that there have been some similar incidents not deemed worthy of report in the islands of Cebu or Paney, as it has been reported that some insurgent vessels have been carrying arms to spread the insurrection in those islands and Dewey would have repressed them.

"During the month twenty-eight deaths, eight small pox; eight typhoid fever; five malarial and intestinal complaints; three complications."

General Otis cables considerable more than the above, but the department does not deem it advisable to make the other portions of the dispatch public, because of its bearing upon the peace negotiations. It contains suggestions by General Otis regarding the disposition of the Philippines, and also information about the insurgents.

INSURGENTS HAVE NO NAVY.

But the reports to the navy department show that it is absurd to speak of an insurgent navy seriously, for the entire force consists of a few schooners, and one or two little coasting steamers. All put together they would be no match for the least of the vessels under Dewey's command.

The explanation of the admiral's interference with these vessels in their operations is a desire on his part to maintain the status quo in the Philippines pending the conclusion of the peace commission's work in Paris. It is said here that it is not surprising that the Spanish cabinet is trying to make much of any incident that can be twisted into a demonstration of actual hostilities between the occupying American forces in the Philippines and the insurgents, for that would be ground to sustain the contention they are sure to put forward when the Philippines comes under consideration before the Paris commission that the United States forces never have been able to take possession of and hold territory outside of Manila proper.

Under the rules of international laws such a point would be entitled to serious consideration in determining what disposition should be made of territory.

SITUATION IS IMPROVING.

WASHINGTON, Oct. 20.—The war department today posted the following bulletin:

Under date of yesterday, General Otis cabled the war department the following:

"Situation in Luzon somewhat improved. Influence of Filipinos of education and property not desiring independent government, but hostile to Spain gaining ascendancy in revolutionary councils.

"Promising nothing, but enforcing the law. Complications seriously affect inter-island commerce and diminish revenue. Affairs progressing favorably, though sick report increasing, owing mostly to carelessness of enlisted men. Health of officers good. Condition of city and facilities for quartering troops improving. Fever decreasing. Intestinal troubles about the same. Many slight ailments. Small pox apparently arrested.

CONVENTION CLOSED.

Session of the Woman's Foreign Missionary Society Ended--Much Work Done.

The two days' convention of the Woman's Foreign Missionary society of the Fort Wayne district came to an end at Wayne street church last evening. The most interesting feature of the program was the address by Mrs J. H. Gill, who related her experience as a missionary in India. Twenty-seven years ago she went to that country and her labors have been almost entirely in behalf of the women and girls of that benighted land. During her stay there she had the opportunity of seeing the Methodist missions grow a great deal. At the close of Mrs. Gill's talk an informal reception was held. The next convention will be held at Huntington.

NUPTIAL TIES.

Wedding of Mrs. H. D. Borden and Lieut. Harry Clement.

Taft-Harrison Wedding Last Evening a Brilliant Affair--Several Other Matrimonial Events.

At Piqua, Ohio, on the evening of October 16, at the residence of her sister, Mrs. Charles Locke, Mrs. Henry D. Borden, nee Mary Edgerton Nelson, grand-daughter of Mrs. Joseph K. Edgerton of this city, was married to Lieutenant Harry Clement, of the Twenty-first United States infantry.

The groom is a Virginian by birth. During the recent Cuban Campaign, with his former regiment, the Twenty-second United States infantry, he participated in the battle of El Caney. He has but recently recovered from fever contracted during the campaign.

As soon as his leave expires, Lieutenant Clemens and his bride will go to Plattsburg, New York, where the Lieutenant will join his regiment. The new military post at Plattsburg is one of the largest and most desirable garrisons in the country.

TAFT-HARRISON.

At the residence of Mrs. Mary Harrison last evening occurred the marriage of her daughter, Josephine, to Frank L. Taft, the ceremony being performed by Rev. D. W. Moffat. The house was handsomely decorated with autumn foliage and under a charming canopy of asparagus vines and chrysanthemums the bride and groom stood during the wedding service. The ring ceremony was used. Two little flower girls, Alice Foster and Sinclair Hattersley, preceded the bride upon her entrance into the parlor, and upon her appearance the Lohengrin wedding march was played by Charles Adams, of Chicago. The bride was elegantly attired in a white silk poplin gown and wore a veil of tulle. After the ceremony congratulations were extended by about fifty guests. An elaborate wedding supper was served. The bride and groom left on the Pennsylvania limited for the east, to spend their honeymoon. They will be at home in this city after November 15th, at their home, 59 Columbia avenue.

The out of town guests were Mr. and Mrs. Harry Downing, of Richmond; Mrs. Eliza Murdoch, son and daughter, Mrs. Richard Pennington and Mrs. William Godfrey, all of Chicago; Mr. and Mrs. Charles Saylor, of Omaha, and Mr. and Mrs. Danial Taft, of Columbus, Ohio; Mr. and Mrs. P. W. Smith, of Richmond; Mrs. Dr. Burkett, of Warsaw; Mr. and Mrs. Charles Adams, of Chicago.

HOSTER-M'BRIDE.

Rev. W. D. Parr, of this city, officiated at a wedding at Indianapolis Tuesday evening, the contracting parties being James P. Hoster and Miss Martha McBride. The bride is a daughter of Judge and Mrs. R. W. McBride.

WESTERBERG CORNELLE.

Last night Alfred Westerberg and Miss Eugenia Cornelle were united in marriage by Father Dunham, the ceremony taking place at the episcopal residence. After the service a reception was held at the home of the bride's parents, 274 West Jefferson street. The groom is the head tailor in the Rabus establishment.

VAN HOOZEN-PARNIN.

Last evening at the Plymouth Congregational church parsonage Rev. J. S. Ainslie married William N. Van Hoozen and Miss Helen F. Parnin. After the ceremony was performed the couple repaired to the homestead of the groom's parents, in Aboite township. Mr. and Mrs. Van Hoozen will reside in Aboite, he being a rising young farmer of that section.

CASHIER GONE.

Stole Thousands From a Louisville Bank and Fled.

LOUISVILLE, Ky., Oct. 10.—It has developed that Charles G. Henning, individual bookkeeper at the Bank of Louisville is a defaulter in a sum ranging between $8,000 and $10,000 and that he has fled from the city.

Henning's downfall is said to be due to wine, women and a broken engagement with a St. Louis girl. The marriage was prevented on account of a difference in religion, Henning being a protestant and she a Catholic. Henning was one of the bank's most trusted employes.

Congressional Nomination Invalid.

HARRISBURG, Pa., Oct. 20.—Judge Simonton, of the Dauphin county court, has filed an opinion in which he holds that the certificate of nomination of Congressman Thomas S. Butler, who claims the republican nomination in the Sixth district, is invalid, because he was not regularly nominated. Butler's certificate was objected to by ex-Congressman John Robinson, of Delaware county, who has filed nomination papers as an independent candidate.

WITH RAILROAD MEN

Notable Reception to President in Chicago.

Warmly Greeted by the Railway Brotherhoods.

An Informal but Very Pleasant Occasion.

Chiefs of All the Organizations Were Present--Mr. McKinley Makes a Brief Address.

CHICAGO, Oct. 20.—The weather for today, the last day of Chicago's peace jubilee, was even worse, if possible, than that of the preceding three days. Rain fell fitfully and a cold breeze blew constantly. Preceding the chief event, the railroad employes' reception to the president, Mr. McKinley spent the time quietly at the home of Captain McWilliams, receiving only a few callers and being engaged principally with Assistant Secretary Cortelyou. At 1:30 p. m. the president was driven to the First Regiment armory, where together with Mayor Harrison, he was received by a large gathering of railroad employes.

After the reception the president addressed the railroad men, eliciting from them the warmest applause.

The armory where the railway employes and the president met was gaily festooned and the galleries were hidden behind the folds of "Old Glory." The president appeared upon the east end of the main balcony and spoke briefly to the assembled railway men, who represented every branch of the service.

The mass meeting was in the nature of a formal opening of the three days' conference of railway employes called to draft measures for national and state legislation applying to organized railroad labor. In the gathering were represented the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen, the Brotherhood of Railway Trainmen, the Order of Railway Conductors and the Railway Telegraphers' union.

The ladies' auxiliary in each of the orders assisted in the reception to the president. A throng gathered outside the armory two hours before to cheer Mr. McKinley upon his arrival. Mr. McKinley's party was conducted to the first balcony, from which he looked out upon the thousands of railway men.

CHEERED THE PRESIDENT.

The galleries overhead were filled with men, women and children, who cheered whenever an opportunity presented itself.

Many of those gathered on the drill floor were in the delegations of railway men that visited the president at Canton during the campaign period. The enthusiastic reception accorded to President McKinley upon his arrival at the armory was sufficient assurance that the railroad men appreciated his presence. The armory was crowded when the exercises were opened with prayer by Dr. Emil G. Hirsch. Chairman J. H. Walsh, of the Brotherhood of Locomotive Engineers, presided and delivered the opening address. He then introduced Mayor Harrison who delivered the address of welcome to President McKinley. The president's response was listened to attentively and frequently interrupted with applause.

THE OTHER SPEAKERS.

Following President McKinley came Judge John Barton Payne, of Chicago, who spoke briefly. Other speakers on the program were:

George R. Peck, who was followed by the presidents of the railway organizations: E. Clark, of the Order of Railway Conductors; F. P. Sargent, of the Brotherhood of Locomotive Firemen; P. H. Morrissey, of the Brotherhood of Railway Trainmen; P. M. Arthur, of the Locomotive Engineers.

An informal reception for the railway men was held by the president after the addresses. Mr. McKinley was stationed in an inclosure on the first balcony above the entrance, where the railway men filed by singly.

As they came up to the president, one by one, they extended their hands. The president grasped each hand held out to him.

The disagreeable weather had no visiable effect upon either the size of the crowd which cheered the president at the armory or upon the enthusiasm. The people stood for hours in the pneumonia-breeding air and made light of the rain. The railway men were all admitted into the armory by ticket. A number of distinguished guests from Washington were present and composed the group which surrounded the president on the balcony.

The railroad reception at the armory was President McKinley's last public appearance in Chicago during the jubilee, wet weather having necessitated the postponement of the bicycle parade.

The presidential party will leave at 11 o'clock tonight on the Pennsylvania special train.

PRESIDENT'S BANQUET SPEECH.

At the peace jubilee banquet last night President McKinley spoke. And this is what he said:

"It affords me gratification to meet the people of the city of Chicago and to participate with them in this patriotic celebration. Upon the suspension of hostilities of a foreign war, the first in our history for over half a century, we have met in a spirit of peace, profoundly grateful for the glorious advancement already made, and earnestly wishing in the final termination to realize an equally glorious fulfillment.

"With no feeling of exultation, but with profound thankfulness, we contemplate the events of the past five months. They have been too serious to admit of boasting or vain glorification. They have been so full of responsibilities, immediate and prospective, as to admonish the soberest judgment and counsel the most conservative action. This is not the time to fire the imagination, but rather to discover in calm reason the way to truth and justice and right, and when discovered to follow it with fidelity and courage, without fear, hesitation or weakness.

GRAVE RESPONSIBILITIES.

"The war has put upon the nation grave responsibilities. Their extent was not anticipated and could not have been well foreseen. We cannot escape the obligations of victory. We cannot avoid the serious questions which have been brought home to us by the achievement of our arms on land and sea. We are bound in conscience to keep and perform the covenants which the war has sacredly sealed with mankind. Accepting war for humanity's sake, we must accept all obligations which the war in duty and honor imposed upon us. The splendid victories we have achieved would be our eternal shame and not our everlasting glory if they led to the weakening of our original lofty purpose or to the desertion of the immortal principles on which the national government was founded and in accordance with whose ennobling spirit it has ever since been faithfully administered.

"The war with Spain was undertaken not that the United States should increase its territory, but that oppression at our very doors should be stopped. This noble sentiment must continue to animate us, and we must give to the world the full demonstration of the sincerity of our purpose.

LET US DO OUR FULL DUTY.

"Duty determines destiny. Destiny which results from duty performed may bring anxiety and perils, but never failure and dishonor. Pursuing duty may not always lead by smooth paths. Another course may look easier and more attractive, but pursuing duty for duty's sake is always sure and safe and honorable.

"It is not within the power of man to foretell the future and to solve unerringly its mighty problems. Almighty God has His plans and methods for human progress, and not infrequently they are shrouded for the time being in impenetrable mystery. Looking backward we can see how the hand of destiny builded for us and assigned us tasks whose full meaning was not apprehended even by the wisest statesmen of their times. Our colonial ancestors did not enter upon their war originally for independence. Abraham Lincoln did not start out to free the slaves, but to save the union. The war with Spain was not of our seeking and some of its consequences may not be to our liking. Our vision is often defective. Shortsightedness is a common malady, but the closer we get to things or they get to us the clearer our view and the less obscure our duty. Patriotism must be faithful as well as fervent; statesmanship must be wise as well as fearless—not the statesmanship which will command the applause of the hour, but the judgment of posterity.

PROGRESS PREVENTS DEGENERATION.

"The progress of a nation can alone prevent degeneration. There must be new life and purpose or there will be weakness and decay. There must be broadening of thought as well as broadening of trade. Territorial expansion is not alone and always necessary to national advancement. There must be a constant movement toward a higher and nobler civilization, a civilization that shall make its conquests without resort to war and acieve its greatest victories pursuing the arts of peace. In our present situation duty and duty alone should prescribe the boundary of our responsibilities and the scope of our undertakings.

"The final determination of our purpose awaits the action of the eminent men who are charged with the making of the treaty of peace and that of the senate of the United States, which, by our constitution, must ratify and confirm it. We all hope and pray that the confirmation of peace will be just and humane as the conduct and consummation of the war. When the work of the treatymakers is done the work of the lawmakers will begin. This one will settle the extent of our responsibilities; the other must provide the legislation to meet them. The army and navy have nobly and heroically performed their part. May God give the executive and congress wisdom to perform theirs."

Secretary Mohler, of the board of charities, says that thieves have been stealing potatoes from the patches cultivated by the society during the summer. This is about as low as any person can stoop—virtually stealing from the mouths of the suffering poor.

PERIL IN EXPANSION

Herbert Says America Must Not Take Tropical Lands.

Former Secretary of the Navy Insists That His Country Can Defend All Its Interests.

NEW YORK, Oct. 20.—Hilary A. Herbert, former secretary of the navy, in responding to the toast "Our Place Among the Nations," at the dinner of the Quill club last night, spoke against colonial expansion in the tropics. He said:

"Will the dangers ahead of us overcome the nation? Will this great government fail by its own ambition, or will it go on as it has in the past, leading the way among the nations?

"We are forty-five equal states capable of enjoying the blessings of free government. Our navy is fifth among those of other nations, but our shipbuilders have no superiors, and Dewey, Sampson, Schley and Watson have shown that our sailors are equal to any afloat.

NO NEED OF FOREIGN ALLIANCES.

"The United States can defend their interests on the high seas wherever their interests may be. It may cost money, but there is no need of a foreign alliance.

"No thoughtful man can deny there are dangers ahead of us, but they lie in another direction. We have passed the parting of the ways. Alaska is colony No. 1, Hawaii is colony No. 2, Porto Rico is No. 3, Cuba will gravitate into the union and be colony No. 4. The Philippines may come in and be colony No. 5, or they may be divided up so that one of them may be colony No. 25. No one can say these countries today are capable of being part of this nation.

"Their people are incapable of self-government. When will they be capable? Will it be when they are Americanized?

INHABITED BY INFERIOR PEOPLES.

"Take the answer from the history of the Danish West Indies, the French West Indies, the Dutch or British West Indies. Experiments have been tried there for 200 years and they have not been successful. The cardinal and insuperable objection to the colonization of tropical countries is that they are already inhabited by an inferior population. No Anglo Saxon has been able to change Jamaica and other West Indian islands.

"I believe our navy ought to be increased whether we have more colonies or not, but if we increase our colonies we must build a navy equal to that of any nation afloat."

Mr. Herbert said if we could take in our kith and kin across our northern border it would be well and good, but if Canadians did not care to join us we should stand as we are and preserve the union without inviting disaster by experiments not in accord with our institutions.

MORE WIRES DOWN.

Board of Works Orders Them Removed From Three Streets.

Preparing to Do Some Paving Next Season--Will Tonight Hear Objections to Improvements.

The board of public works has instructed City Attorney Shambaugh to draw up an ordinance compelling the removal of all poles and wires on Columbia street from Calhoun to Barr, on Main street from Maiden Lane to Barr and on Clinton street from the Nickel Plate railway to Washington. It is the intention of the board to have these streets paved next summer and the notice for removal of poles and wires is given thus early that the companies affected may have plenty of time to build conduits and place the wires underground.

MUNICIPAL NOTES.

The board of public works will tonight hear objections to the assessment rolls and pavement for that part of Calhoun street from Superior street to the south line of Main street. Objections will also be heard to the grading and paving of the alley between Maumee avenue and Oak street from Division street to Chute street.

The comptroller is still collecting the vehicle tax and this morning Officer Krock brought in a driver of an express wagon, who was compelled to settle. More than $7,200 has already been collected and this fund will insure clean streets next spring and summer.

THE HOSTS ARE HERE

Railroad Y. M. C. A. Convention Opens Tonight.

Incoming Trains Bring in Hundreds of Delegates.

Visitors Assigned to Various Homes and the Hotels.

Meeting This Evening at the Baptist Tabernacle and Opening Address by Dr. Canfield, of Ohio University.

Tonight, at the Baptist Tabernacle, will be held the opening session of the international conference of the Railroad department of the Y. M. C. A., an event for which preparations have been going on for the past three months.

It is an event of particular importance, for in these sessions to be held here will be transacted business that will interest every railroad association in existence. More workers in the Y. M. C. A. field will be brought together at this meeting than at any gathering of the kind ever held.

Bright and early today the reception committee reported at the railroad department to prepare for the arrival of delegates. This committee consists of Secretary J. W. Burns, chairman; J. E. N. Dillon, F. M. Mank, A. D. Craig, Amos Sine, C. B. Stemen, C. H. Newton, H. A. Philley, R. E. Doty, Robert J. Hamilton, Merlin Kanaga, J. E. Parry, E. S. Philley, M. C. Wright, J. B. Wagner, A. H. Polhamus, James Trythall, Charles Yagelebner, S. F. Bowser, Benj. Saunders, John G. Littlejohn, J. W. Peckham and N. B. Whitsell.

FIRST ARRIVALS.

The first arrivals came over the Wabash from the west, when twenty-six from Illinois and Missouri points reported. A few also came in on this road from eastern points. Something over one hundred came in over the Nickel Plate from the east at noon, a good sized crowd came in over the Grand Rapids and Indiana, both north and south, and the Lake Shore and Muncie brought in small delegations. Several hundred will arrive on the Pennsylvania train No. 9, from the east, late this afternoon, and by 9 o'clock this evening it is expected that at least 700 delegates will be registered at the rooms of the assignment committee in the Third Presbyterian church. For such accommodations as have been lacking the committee has arranged for the entertainment of delegates at hotels. About 200 are to be thus distributed, leaving about 500 to be cared for at private homes.

The meeting will open this evening at 8 o'clock at the Baptist Tabernacle. The address of welcome will be delivered by Rev. D. W. Moffatt, pastor of the Presbyterian church, after which J. H. Canfield, LL. D., president of the Ohio university, will be introduced and will deliver the opening address of the convention. Dr. Canfield, having once been active in the Y. M. C. A. work, is especially qualified to deliver the speech that shall set the wheels of this great convention in motion.

COL. MAY IS HAPPY.

Begins to See Daylight in the Mustering-Out Work.

Medical Examination Proceeding Satisfactorily--Camp Hospital Will be Continued as Long as Needed.

INDIANAPOLIS, Oct. 20.—When seen last night Colonel May was smiling all over and nearly all that he could say was:

"We are now beginning to see daylight."

The situation is assuming a more optimistic appearance at Camp Mount. For a long time affairs looked very blue, but the shadows have passed over and everything is now rapidly moving toward the mustering out of the troops in camp. Nearly all of the accounts have been completed and the ordnance turned in and receipted for.

The medical examinations are what are delaying matters more than anything else. But the examiners were very busy yesterday and made excellent progress. One set of doctors examined 307 men of the One Hundred and Fifty-seventh and they were very well satisfied with the condition of the soldiers. They are the best lot of men that have been inspected since the war was begun. Of the One Hundred and Fifty-eighth, ninety soldiers were examined and it is hoped that the examination of this regiment will proceed with more rapidity in the future. Also twenty of the battery boys from Fort Wayne passed the physicians' inspection.

The soldiers were all in a much better humor yesterday because the state has decided to take back the articles which it tried to force the boys to keep. Colonel May said that this action on the part of the state was no more than right, for the goods were in most instances not worth anything. He further said that if the state had come to this decision sooner the mustering out of the first regiment in camp would in all probability have been over by this time.

There were forty sick men confined at the hospital in the Administration building last night, but none of them was in a serious condition. Most of the men are ailing with malaria and there are also several cases of typhoid, but these are not at all dangerous. Colonel May telegraphed to Washington on Tuesday explaining the necessity of maintaining the hospital, as all of the physicians were busily engaged with the mustering out examinations. In reply he received orders yesterday to keep the hospital so long as there was any need of it.

WAITING FOR WORD.

Spanish Peace Agents in Need of Instructions.

Realize Spain's Helplessness and Will Play the Game Accordingly--Affairs in Porto Rico.

PARIS, Oct. 20.—The Spanish peace commissioners have not yet received from Madrid either instruction or permission to bid adieu to Cuban sovereignty without further seeking to attach to this sovereignty some condition providing for the assumption of the Cuban debt by the United States.

If they are as at present disposed and instructed, the Spaniards will not at tomorrow's meeting recognize affirmatively the United States' position and will stop on the point of results.

Should they flatly reject American insistence the Spaniards, while recognizing the physical power of the United States against unaided Spain, will humbly extend their palms upwards and shrug their shoulders.

They regard the situation as pitiable and are not averse to any sympathy it may excite. They affirm that the American answer to their debt propositions is very long and that they have not yet had time to meditate fully upon it. They, thus far, apparently intend not to yield, and will tomorrow make another written presentment and expect an extended discussion thereon.

Whether they will tomorrow be met with, or at the close of the session receive as to Cuba the American ultimatum of terms and time, must be then developed. While this is possible it is now not quite probable.

AFFAIRS IN PORTO RICO.

SAN JUAN, Porto Rico, Oct. 20.—The city remains orderly and all is quiet elsewhere. Major General Brooke is installed in the palace and Brigadier General Henry remains as commander of the district of Ponce. Brigadier General Grant has been appointed commander of the district of San Juan.

Senores Rivera, Blanco, Lopez and Carbonne, ministers of the consular government, have tendered their resignation to General Brooke, stating that they will perform their functions, if desired, until their successors are appointed.

The first general order issued by General Brooke is a dignified, fair document, and has been well received by the people.

The postoffice here under American auspices is being established with all possible haste.

United States special commissioner Carroll, arrived here yesterday on board the steamer Panama.

OFF A SCAFFOLD.

Edward Redding Falls at the New Court House.

His Leg Fractured--Horse Belonging to Jenney Electric Light Company Killed.

At 1 o'clock this afternoon Edward Redding, a workman at the court house, was in the act of moving a scaffold, when he lost his balance and fell to the floor, a distance of thirty feet. His leg was fractured.

The city patrol conveyed the injured man to the St. Joseph hospital, where Dr. G. C. Stemen reduced the fracture. Redding is twenty years old and has been employed as a helper. His home is at St. Louis.

A strange coincidence in connection with the accident is that one year ago today the father of the unfortunate young man fell at the court house building, sustaining a similar injury.

HORSE KILLED.

This afternoon as the line repairers of the Jenney Electric Light and Power company were working on East Superior street, the team hitched to the wagon containing the tool kit, ran away. In making a short turn at the corner of Superior and Clinton streets one of the runaways fell. In falling its head struck the stone curbing and it was instantly killed.

Everybody who once belonged to the A. O. U. W. and has severed his connection with the order is especially invited to attend the meeting of No. 36 this evening at Odd Fellows' hall (second floor) on West Berry street. The grand master workman will lecture upon the order and explain the new plan of assessment, re-instatement, etc. It is hoped the lodge room will be crowded.

Hon. S. M. Ralston, democratic candidate for secretary of state, addressed a democratic meeting in Garrett last night and was given a warm greeting by a good sized audience. Judge S. M. Hench, of this city, was also one of the speakers.

Born to Mr. and Mrs. Christian Smith, of Ramsey avenue—a son.

ABSORBING SUBJECT

France Keeps on With Her War Preparations.

Important Naval Experiments at Toulon.

A Secret Council of War Held at Brest.

Confidential Orders are Issued to the Garrison--Naval Reserves Ready for Active Service.

PARIS, Oct. 20.—The alleged war preparations of France are the absorbing subject of discussion here at present. According to the French papers, there were important naval experiments at Toulon last evening.

A flotilla of torpedo boats was detailed to make an endeavor to force the entrance of the harbor and the whole garrison was called to arms and the forts and batteries were manned, ready for instant action.

The result of the experiments has not been made public.

Vice Admiral Barrera presided yesterday at a secret council of war at Brest, in which the chiefs of the maritime forces took part. Confidential orders were subsequently issued to the garrison.

The Aurore asserts that five classes of the naval reserves around Brest have been ordered to hold themselves in readiness for active service.

NO SHRINKING FROM WAR.

LONDON, Oct. 20.—"It would be a great calamity if, after peace for upward of eighty years, our friendly relations should be disturbed and we should be launched into a great war, but there are greater evils than war and we shall not shrink from anything that is coming, knowing that we are supported by a united people."

With these significant words Sir Michael Hicks-Beach, chancellor of the exchequer, concluded a speech at North Shields last evening.

In opening his address he announced that the government had begun negotiations with the powers with a view of securing to the subjects of the various powers the right of "developing the respective spheres in which each country is especially interested."

Then turning to the Fashoda question the chancellor said he wished cordially to acknowledge the desire evidenced in the speeches of Lord Rosebery and Herbert Asquith to help the government in the matter. "A matter," he added solemnly, "which might develop to the utmost gravity."

DENIES FRENCH CLAIMS.

"It is impossible," he continued, "for France to maintain that she had political rights at Fashoda. She has naturally and properly asked for time to receive Major Marchlands report, but until the contrary is proved I decline to believe that France will refuse to withdraw. If she refused the matter would assume an aspect as grave as is possible between two great nations.

"The government is animated by the friendliest spirit toward France and does not wish to inflict humiliation.

"What we desire is fair treatment. Our work in Egypt is not completed. Africa is big enough for us both—for France in the west and ourselves in the east. Surely we ought to be able to agree to respect each other's rights and claims.

"I hope, trust and believe," Sir Michael concluded, "the question is capable of a friendly solution, but this country has put her foot down. If unhappily another view should be taken by France, the queen's ministers know what their duty demands."

FRENCH MISSIONARY MURDERED.

PARIS, Oct. 20.—At the cabinet meeting today the minister of foreign affairs, M. Delcasse, read a dispatch from the French minister at Pekin, M. Gerard, announcing that a French missionary and several Chinese Catholics have been massacred or burned to death in a chapel at Paklang by a riotous mob. M. Gerard immediately demanded reparation from the Chinese government.

THE PATIENT DIES.

Yellow Fever Causes the Death of Miss Beck at Warren, Ohio.

WARREN, Ohio, Oct. 20.—The case of yellow fever in Paris township, Trumbul county, resulted in the death of the victim, Miss Blanche Beck, aged twenty-eight years. There have been no other developments of the disease. Miss Beck recently fled from Mississippi, coming to this country from from Tennessee.

TUG BOAT SINKS.

The L. B. Smith in a Collision at the Mouth of Cleveland Harbor.

CLEVELAND, Ohio, Oct. 20.—The big tug, L. B. Smith, was sunk in the harbor entrance today as a result of a collision with the steamer Olympia. There were three men on the tug. The captain and engineer jumped just as she went down and were rescued after a long and desperate battle with the waves. When picked up by a boat from the Olympia the men were well nigh exhausted. The fireman went down with the tug and was drowned. The Olympia was uninjured.

DEMOCRACY is a winner this year.

THE Philippine insurgents are preparing to go entirely out of business. They have begun to monkey with George Dewey.

THE people are going to elect Hon. George V. Kell to the state senate because of peculiar contingencies which make his election a necessity. That is to say, they do not purpose that Allen county shall be bossed by the saloon element.

MR. CROKER'S determination to start another bar association in New York because the present organization has been denouncing one of his candidates for the supreme court, is an indication that he sees the folly of relying entirely upon the other kind of bar for political success.

CHAIRMAN HERNLY, of the republican state committee, in his letter pleading with Perry Heath to come to Indiana, reasons with much cogency that President McKinley can do a lot more good by keeping on the move and scattering his speeches from the rear platform than spending a week in Chicago. The president doubtless feels the rebuke.

IT WOULD be interesting to know, but doubtless highly impertinent to inquire, just what kind of testimony Mrs. James Dietrich, of Milford, this state, introduced to secure a verdict for $126 against Mrs. Anna Mengel, a social rival of the same town, for circulating the report that the plaintiff's beautiful figure was due to sawdust, inflated rubber and other artificial devices.

IT is announced that General Benjamin Harrison has promised, in view of representations made to him of the desperate straits of the republican party in Indiana, to make a rear platform campaign through the state the week before the election. The former president has a growing distaste for that sort of activity in politics and the tale of woe that won his consent must have been harrowing, indeed.

IN the presence of several thousand people General Shafter deliberately snubbed General Miles by refusing to accept the commanding general's proffered hand. General Shafter is not obliged to like General Miles if he would rather not, but such conduct will not do much to dissipate the public belief that the man who commanded at Santiago is much less a hero than some of the subordinate generals who were in the fighting and under fire.

LATEST reports to the state department tell of a marvelous development of ship building in Japan. United States Consul Harris, at Nagasaki, says that there has just been delivered there the largest steamship ever launched outside of American and European waters. This is the Hitachi Maru, built by the Mitsu Baishi company, at Nagasaki, and her displacement is 11,660 tons This is classed by Lloyds as 100 A 1. Her sister ship will be built at once. There was also opened at Nagasaki a new granite dock 371 feet long and besides a complete and powerful plant the ship building company has laid its yards for vessels up to 500 feet long which can also be docked there. The company employs 2,000 men.

MACHINERY AGAINST LABOR.

The results of a thorough investigation ordered by congress and just completed, showing the effects of machinery on labor and incidental questions, constitute the thirteenth annual report of the commissioner of labor. The report among other things says:

"There should be no quarrel with the conclusion that machinery has lowered the cost of products, and when it is known that under the machine method there is an increased demand for labor, as a rule, the bearing of the supply of labor becomes problematical. Sometimes there is a lack, oftentimes a surplus of labor. The statistics presented consider each operation and process of labor separately. In agriculture the figures show among other things that under the primitive methods the time required for plowing one acre of ground varied from five to eight hours, and under the modern from five to seven hours and forty-two minutes where two horses were used and from three hours and four minutes to six hours and forty minutes with three horses. Fertilizing ground required twenty-five hours under the earlier wagon and shovel method and but one hour by the modern drill. In small grain harvesting the self-binder has reduced the time for cutting and binding and shocking to about one-eighth of that under the primitive system. In thrashing the ratio of time used is more than 32 to 1 in favor of the machine. In corn planting the old method took nearly six times as long. One of the comparisons shows the manufacture of 1,000 one-pound loaves of bread is reduced in cost from $5.59 to $1.55, and in time from twenty-eight to eight hours. In making 500 pounds of dairy butter machinery cut the cost down from $10.56 to $1.78, and from 125 to twelve hours. In making matches the time is cut from 259 to twenty hours, and the cost from $24 to $3. In printing and publishing magazines, 10,000 copies, the labor reduction cited is from 3,170 to fourteen hours, and from $302.50 to $3.62. In mining 100 tons of coal the hand cost in 1891 was $77.50, and the time composed 342 hours. Machinery reduces this in 1897, to $42.40, and the time to 188 hours, while the number of workmen is reduced from forty-two to thirty-two."

MAGIC GOES WRONG.

Doubting Court Ships Miracle Workers to the Michigan Penitentiary.

GRAND RAPIDS, Mich., Oct. 20.—Professor R. D. Leon, claiming to be a Hindoo Theosophist, was found guilty of larceny and sentenced to five years in the Jackson penitentiary.

The case against the alleged authority on oriental mysteries was peculiar. Leon came here last summer to teach Theosophy and mental curing, and soon had a large class of prominent society women. In his public lectures he attracted Mrs. Tandler and she went to him to have her rheumatism cured.

The Hindoo learned the woman's husband had $300, and he persuaded her to let him put it into a box, with various incantations, and seal it up. The box was not to be opened until sixty days had passed and then the amount would be $600.

The woman's curiosity was stronger than her faith, so she opened the box, found it empty and caused a sensation by having Leon arrested.

KILLS TWO THEN SUICIDES.

Three Lives Ended by William H. Branton in Youngstown, Ohio.

YOUNGSTOWN, Ohio, Oct. 20.—William H. Branton, a grocer, shot Constable Jenkins, then Mrs. Branton, and closed the chapter of homicide by killing himself with the last bullet in his revolver last night.

The couple had been married only eight months. Recently Mrs. Branton left her husband on account of ill treatment and went to the home of her parents, Mr. and Mrs. John Kennedy. Last night she went back with Constable Jenkins, who had a writ of replevin, to secure her clothing. While the officer, Mrs. Branton and her husband were upstairs shots were heard, and when officers entered the room all three were dead on the floor.

It is supposed that Branton attacked his wife in a passion, and the officer in defending her was shot, and then the husband killed his wife and himself.

IN CHINA.

Horrible Spectacles Reported From Wu-Chow.

Eight Leaders of the Rebellion Publicly Beheaded--A Great Occasion of Merrymaking.

VANCOUVER, B. C., Oct. 20.—According to the latest advices by mail from China, eight subordinate leaders of the Kwangsi rebellion have been beheaded at Wu-Chow. They were carried in baskets through the principal streets as a warning spectacle, amidst the laughter and jeers of men, women and children. Ten thousand people witnessed the decapitation and made it a gala day. Little children copied their parents, who joked at the dying rebels a second before the axe fell. When all was over the children played among the headless bleeding corpses and made sport with the black, disfigured heads.

Mandarins and headsmen improvised a sort of May pole and the heads of the rebbels were placed on top in tiers, the children dancing around them.

The governor advised the mandarins to make the beheading as festive as possible, so as to inspire disgust for the rebels in the hearts of the people. A banquet was afterward spread.

The Japan Mail says a petition has been sent to the government by foreign consuls requesting that the beheading be discontinued.

BRINGS MILLIONS IN GOLD.

Steamer Roanoke Lands With $3 500,000 From Alaska.

SEATTLE, Wash., Oct. 20.—The last and largest treasure shipment to come out of the Klondike gold fields arrived in Seattle yesterday on the steamship Roanoke. There was about $3,000,000 in actual gold dust on board, exclusive of the holdings of passengers, which would increase the total amount of dust to $3,500 000. The gold belonged to the two Canadian banks and to the North American Transportation Trading company. There were fifty-eight big boxes under guard in the Roanoke's strong room.

The big steamer reached port shortly before noon, fairly black with people. There were several hundred passengers other than on the list. The trip from St. Michael's had been a rough one and several of the passengers were sick.

IN GREAT DIFFICULTIES.

Not a Solvent Insurance Company in Japan.

VANCOUVER, B. C., Oct. 20.—The Hyogo, Japan, News says that with the exception of the Meiji Terikuk and Kyosai Life Insurance company, every life insurance company in Japan is in difficulties, owing to their basing their actuary tables too closely on British and American lines.

None of them can ever pay their bills. Every two or three months owing to enormous disasters, involving great loss of life, an insurance company suspends paying. As there is no system of depositing guarantees with the government, holders or heirs lose the benefit and extensive frauds are suggested.

PRISON CONGRESS CLOSES.

R. W. McClaughry Chosen President of the National Association.

INDIANAPOLIS, Ind., Oct. 20.—The National Prison association, at its closing session yesterday, voted to ask congress to establish a national bureau of identification.

The association elected the following officers: President, R. W. McClaughry, Joliet, Ill.; general secretary, Rev. John L. Milligan, Allegheny, Pa.; financial secretary, Joseph B. Byers, Columbus, Ohio; treasurer, Charles M. Josep, New York.

Among the directors are R. Brinkerhoff, Mansfield, Ohio; T. E. Ellison, Fort Wayne, Ind.; Charles H Reeves, Plymouth, Ind.; A. T. Hart, Jeffersonville, Ind.

No Damage Done.

ST. LOUIS, Mo., Oct. 20.—In the case of the Pittsburg Crucible Steel company against the Diamond Steel company, the United States court of appeals has handed down a decision in favor of the appellee, affiring the opinion of the lower court. The case was brought to restrain the appellee from imitating a trade mark of appellant and from selling goods marked with that trade mark or any simulation of it. The court decided that no damage had been sustained by the appellants.

Echo of a Lynching.

URBANA, Ohio, Oct. 20.—The circuit court has handed down a decision in the case of Ben Church against Champaign county for $5,000 damages. The suit grows out of the lynching of Click Mitchell two years ago and which gives the nearest kin $5,000. The common pleas court held the law unconstitutional. The circuit court held it to be constitutional. The case will now go to the supreme court.

Supposed Bank Robbers Captured.

SOUTH BEND, Ind., Oct. 20.—"Yock" Allison has also been arrested, together with Harry Slater, for complicity in the robbery of the Richland, Mich, bank, and $160 in gold has been recovered, the coin showing marks of an explosion. Altogether $11,000 was taken, and the police authorities report that they already know where the bulk of the money is secreted.

Wife Murderer Executed.

GRANITE FALLS, Minn., Oct. 20.—Joe Ott, who pleaded guilty of killing his wife, was hanged in the jail yard here at 10:27 a. m. Ott made a statement from the gallows expressing sorrow for the crime. This was the first execution in the history of Yellow Medicine county.

Killed by a Freight Train.

WATERLOO, Ind., Oct. 20.—Burt Duncan was killed by a freight train on the Lake Shore railway, his body being badly mangled. Of recent years he had been living at Columbus, Kas., and was here visiting his former home.

SHORT APPLE CROP.

Germany Will Have to Import Fruit From the United States.

WASHINGTON, Oct. 20.—Germany is about to have an apple crop smaller in quantity and poorer in quality than has been gathered in recent years, according to United States consul general, Frank Mason, at Frankfort. Cider apples this year command three times the usual price, he says, and no cider will be made outside of Wurtemburg. Even cooking apples of an inferior grade are now selling in Frankfort for eight to nine cents a pound. This deficiency is said to extend more or less generally to France, the Tyrol, Bohemia and northern Italy, so the conditions favor a large importation of American apples, though whether this will be practicable or not will depend first on the supply in the United States, and second, the spirit in which the German officials enforce the inspection laws.

Mr. Mason believes in view of the uncertainty of the trade that the future development will be more in the direction of dried and preserved fruits than are fresh fruits imported from the United States.

SCHLEY IN COMMAND.

Appointed as Chief of the Naval Station at San Juan de Porto Rico.

WASHINGTON, Oct. 20.—Admiral Schley has been, by orders from the navy department, placed in command of the naval station at San Juan de Porto Rico. So far the department has no knowledge of the value of the naval property contained in this station when it was evacuated by the Spanish officials.

Admiral Schley has requested that he be permitted to retain in service for a time two or three civilian employes who are acquainted with the station. This has been granted.

It is the intention of the department to send another naval officer to relieve Admiral Schley of the command very soon and to maintain a permanent station at this most important strategic point in the south.

ONE IN EVERY FOUR.

One Person in Every Four Suffers From Piles.

About one person in every four suffers from some form of rectal disease. The most common and annoying is itching piles, indicated by warmth, slight moisture and intense, uncontrolable itching in the parts affected.

The usual treatment has been some simple ointment or salve which sometimes gives temporary relief, but nothing like a permanent cure can be expected from such superficial treatment.

The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure, not only for itching piles, but for every other form of piles, blind, bleeding or protruding. The first application gives instant relief and the continued use for a short time causes a permanent removal of the tumors or the small parasites which cause the intense itching and discomfort of itching piles.

Many physicians for a long time supposed that the remarkable relief afforded by the Pyramid Pile Cure was because it contained cocaine, opium or similar drugs, but such is not the case. A recent careful analysis of the remedy showed it to be absolutely free from cocaine, opium, or in fact any poisonous, injurious drugs whatever. Sold by druggists at 50 cents per package.

Send to Pyramid Co., Marshall, Mich., for free book on cause and cure of piles.

WILHELMINA ENGAGED.

To Marry Eldest Son of Prince William Adolphus of Wied.

NEW YORK, Oct. 20.—A special cable to the Journal from Antwerp says:

A special dispatch from the Hague to the Etoile Belge states that the engagement of Queen Wilhelmina of Holland to Prince William of Wied is shortly to be officially announced.

Prince William is the elder son of Prince William Adolphus of Wied by his marriage with Princess Marie of Holland. He was born on June 27, 1872.

He is a leutenant in the Third Uhlan regiment of the Prussian guard. The announcement has been received with great satisfaction throughout the country.

FIGHTER DIES OF INJURIES.

Andy Dupont Arrested Charged With the Murder of William Walker.

OMAHA, Neb., Oct. 22.—William Walker, the prize fighter who was knocked out by Andy Dupont, of Kansas City, last Monday night, died last night of his injuries.

He was hit a terrific blow on the point of his jaw, which fractured the bone and paralyzed his brain.

Dupont was arrested and is locked up in jail charged with murder.

The fight was witnessed by the South Omaha city officials, and the law makes all participants in a prize fight liable fully with the principals, and makes each offense a felony regardless of results.

THE TEXAS GOES OUT.

Battleship Will Take Part in Philadelphia Peace Jubilee.

NEW YORK, Oct. 20.—The battleship Texas passed out Sandy Hook at 8:25 a. m., for Philadelphia. She is to take part in the peace jubilee there and then go into dry dock to prepare for her long voyage to Manila. It is expected she will be ready to go to Manila in about six weeks. The transport Berlin also sailed this morning bound for Santiago and Porto Rico with quartermaster's stores, etc.

Mrs. F. Fremion left this morning for Chicago, to attend the peace jubilee and to visit friends. She will be absent two weeks.

DENS OF INIQUITY.

Mayor Scherer Will Put a Stop to Their Nefarious Work.

Houses of Ill-Repute Scattered Over the Business District of the City—Police News.

Mayor Scherer is after the houses of ill-repute scattered about the business district of the city. To a SENTINEL reporter this morning he said he was determined to put a stop to their nefarious practices and compel them to move. For months there has been complaint of these houses and in one square in a down town street no less than seven places are conducted by immoral women. Mayor Scherer has taken a decided stand in this matter, and while he does not believe the social evil can be entirely wiped out he is at least determined that it shall not be allowed to flourish on the business streets of the city. The raids made Sunday evening are only the commencement of what the police intend to do until the down-town district is completely rid of the low dives. Whether located above a saloon or any other business house Mayor Scherer says the places must go.

POLICE NEWS.

The proprietor of the I. X. L. restaurant and boarding house reported to the police this morning that last night a thief had invaded the back yard of the boarding house and stole six bed blankets which had been left hanging on the clothes line.

Three train climbers, arrested by Pennsylvania railway detectives, were in police court this morning. Mayor Scherer fined them and then suspended the fine provided they left the city immediately.

Superintendent Gorsline has received a letter from H. A. Cramer, of Sparta, Mich., in which Mr. Cramer says he can not afford to send for his son and requests the sperintendent to take good care of him.

The officers believe that Charley Turner, who is serving twenty days for vagrancy, is wanted in some city and his photograph will be taken and sent away for identification.

COLORED KNIGHTS.

Officers Elected at a Meeting Held Last Tuesday Evening.

At a regular meeting of Lincoln commander, Knights Templar, held last Tuesday evening in the hall on Clinton street, the following officers were elected:

THANKFUL TO MRS. PINKHAM.

Earnest Words From Women Who Have Been Relieved of Backache—Mrs. Pinkham Warns Against Neglect.

DEAR MRS. PINKHAM:—I have been thankful a thousand times, since I wrote you, for what your Vegetable Compound has done for me. I followed your advice carefully, and now I feel like a different person. My troubles were backache, headache, nervous tired feeling, painful menstruation and leucorrhœa.

I took four bottles of Vegetable Compound, one box of Liver Pills, and used one package of Sanative Wash, and am now well. I thank you again for the good you have done for me.—ELLA E. BRENNER, East Rochester, Ohio.

Great numbers of such letters as the above are constantly being received by Mrs. Pinkham from women who owe their health and happiness to her advice and medicine.

Mrs. Pinkham's address is Lynn, Mass. Her advice is offered free to all suffering women who are puzzled about themselves.

If you have backache don't neglect it or try heroically to "work it down," you must reach the root of the trouble, and nothing will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Backache is accompanied by a lot of other aches and wearying sensations, but they nearly always come from the same source. Remove the cause of these distressing things, and you become well and strong. Mrs. S. J. SWANSON, of Gibson City, Ill., tells her experience in the following letter:

"DEAR MRS. PINKHAM:—Before using your medicine I was troubled with headache and my back ached so that I could not rest. Your medicine is the best I have ever used; it has relieved me of my troubles, and I feel like myself again. Thanks to Lydia E. Pinkham.

"I would advise any one troubled with female weakness to take your medicine. I shall also recommend it wherever I can as a great reliever of pain."

Death of Mrs. Cleveland's Uncle.

JACKSON, Mich., Oct. 20.—Col. Milford Harmon, a prominent business man of this city and an uncle of Mrs. Grover Cleveland, is dead.

What mother does not wish to be proud of her children? What mother does not want them to be healthy, happy, laughter loving and able to withstand the ordinary illnesses of childhood?

Any woman may insure the health of her children who will take proper care of her health in a womanly way. The health of her children depends almost entirely upon her general health, and particularly upon the health and strength of the delicate and important organs that bear the burdens of maternity. A woman has no right to disregard her own health, comfort, ease and happiness, she certainly has less right to condemn her children to a life of suffering or an early death. That is what she does if she neglects the health of her special womanly organism. Dr. Pierce's Favorite Prescription is an unfailing remedy for all disorders of this description. It strengthens and invigorates the sensitive organs concerned, and is the best preparation for the trials and dangers of maternity. It insures the well being of the mother and the health of the child. Its use is a guarantee of a bountiful supply of nourishment for the little new comer. Many women who once bore children only to speedily lose them, are now mothers of healthy, robust children as the result of the use of this medicine.

Barbra A. Mudd, of Indian Creek, Mo., writes: "I am very thankful for what Dr. Pierce's Favorite Prescription did for me. I was all broken down from nervous prostration, but since taking your medicine I have had more relief than from all the doctors. Your 'Favorite Prescription' did me a world of good."

Many women have told their experiences, and given their names, addresses and photographs in Dr. Pierce's Common Sense Medical Adviser. This book is free. A copy will be sent to any address upon receipt of 21 one-cent stamps to cover cost of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y. The "Favorite Prescription" is for sale by all dealers and no honest man will urge a substitute.

SPECIAL TRAINS.

The Pittsburg Has Four on the Western Division.

Switchman John Shores Meets With an Accident--No More Sunday Excursions This Year.

The Pennsylvania company is today doing a big business in the way of running special trains, there being four on the western division of the Fort Wayne line. The first one carried General Shafter from this city to Van Wert and thence to Lima, where his car was turned over to the Cincinnati, Hamilton and Dayton. General Shafter's car formed a part of mail train No. 6 from Chicago to this city, where it was cut out and sent on as a special. His coming was not known in time for any demonstration and there were none but the depot attaches and some travelers at the station when the general arrived. A private car carrying Postmaster General Charles Emory Smith was also a part of No. 6.

The next special out was the pile driver train, which went down to Columbia City where it will be engaged for several days.

The third special is that of W. McC. Grafton, superintendent of signals and interlocking switches, which left Crestline, westbound, at 2 o'clock this afternoon and is due here at 5:30. Following this train, an hour later, will be the special bearing President Lanier and Consulting Engineer Spencer, of the Pittsburg, Fort Wayne and Chicago company, who are making their semi-annual inspection of the property. Both of these trains will remain here over night and leave for Chicago at 8 o'clock tomorrow morning.

HIS HAND PINCHED.

John Shores, a switchman in the east yards, had the misfortune to get his right hand between the drawbar heads when attempting to make a coupling. The bone of the second finger and one of the metacarpus were broken. The injury is painful and will probably keep the man from his work for some weeks, yet no serious results are apprehended. Dr. George C. Stemen attended Mr. Shores, who was taken to St. Joseph hospital.

NO MORE SUNDAY EXCURSIONS.

The Wabash has followed the example of the other roads in the matter of Sunday excursions and announces that there will be no more of them on that line this year. Therefore, train No. 13, Toledo to Peru, which was put on for the purpose of carrying the excursionists home, has also been taken off the road.

THE HOCKING VALLEY AFTER IT.

SAGINAW, Mich., Oct. 20.—Rumors are current here to the effect that a deal is in progress whereby the Flint and Pere Marquette railroad may become the property of the Hocking Valley system. The presence here of Ohio and Eastern railroad magnates gives color to the rumor. Among them are: W. W. Crapo, president of the Flint and Pere Marquette, of New Bedford, Mass.; N. Monserrat, of Columbus, O.; J. W. Ellsworth, of New York; O. W. Monk, of Boston; Lewis Pierce and T. L. Pierce, of Portland, Me. About two months ago it was reported that Thomes D. Ryan, president of the Hocking Valley Coal Co., was negotiating to consolidate these two systems for the purpose of getting a line to the Saginaw Valley coal fields, in which the Ohio magnate holds coal options on several thousand acres. J. W. Ellsworth, business partner of Mr. Ryan, was recently elected a director of the Michigan road.

General and Local Gossip.

W. F. Gay, a laborer in the east shops, is sick.

Nickel Plate Brakeman A. Bailey is sick and off duty.

Blacksmith Casper Lehmkuler, of the Pittsburg shops, is sick.

Thomas O'Rourke, of the electric works, is looking after some private business at Bluffton.

Rudolph Hilgeman, of the Wabash shops, reports a pretty new baby girl at his home.

B. R. Brown, a car builder employed in the east shops, is off duty on account of sickness.

G. W. Telley, night foreman at the Pittsburg round house, is off duty on account of sickness.

Brakeman A. F. Young, of the Nickel Plate, is taking a lay off to look after some private affairs.

T. Dailey, of Nevada, Ohio, is visiting his son, L. G. Dailey, clerk at the Pittsburg machine shop.

While at work yesterday, H. Trosin, a Pittsburg car repairer, fell and severely injured his back.

The electric works today sent a 100-light arc dynamo to Baltimore, Md., and a motor to Stanford, Conn.

J. B. Ryan and F. M. Jamey, firemen on the Pittsburg, are sick and unable to go out on their runs.

The Pittsburg and Lake Erie is expending $100,000 for electric pneumatic block signals along its line.

T. B. Hunt, general foreman of the Pennsylvania shops at Chicago, was here today on business for the company.

At a meeting of the Chicago, Burlington and Quincy railroad directors yesterday Malcolm Forbes, son of the late John M. Forbes, was chosen a director and John L. Gardner was chosen

chairman of the board. Mr. Gardner was first elected a director in 1878.

The Fort Wayne Gas company is having a 200-light Wood dynamo placed in its power station at Bluffton.

Machinist E. S. Turner, of the Pittsburg, who had a hand hurt a week ago, was able to resume work this morning.

George Harsh, Nickel Plate conductor, has returned from Fostoria, Ohio, where he attended the funeral of his mother.

Michael Maloney, the sick watchman, was taken to St. Joseph hospital yesterday. His condition remains most critical.

George Schwartz, foreman of the car inspectors at the east yards, has returned from Laporte, Ind., where he visited friends a few days.

Two of the Findlay, Fort Wayne and Western's passenger cars went into the Pennsylvania shops this morning for repairs and repainting.

Ernest Bonjour and Jacob Krockenberger, the former a boilermaker and the latter a helper, took positions in the Bas works this morning.

A special on the Baltimore and Ohio on Saturday made the run from Chicago to Washington in twenty-one hours and eighty minutes.

Foreman William Knight, of the car building department of the east shops, has returned to his duties after a two weeks' vacation, spent in Michigan.

Charles Seibt and Herman Regel, machinists at the Bass works, have returned heme. The former was at Chicago and the latter at Vincennes on business for the company.

There is sickness in the family of J. Palmer, which keeps him from his duties in the east car shops. One of his children has typhoid fever. Mr. Palmer is a car builder.

Nickel Plate Engineer George Dunann left yesterday for Buffalo to join and accompany his aged mother to her home in Chicago. She will stop here and visit a few days.

The Montreal Witness, in speaking of what General Manager Hays, who left the Wabash to go to the Grand Trunk, has accomplished praises him for introducing American methods of railroading on that system.

William Wehrs, assistant foreman of the Pittsburg planing mills, and his wife went down to Columbia City this morning. Mr. Wehrs will do a little fishing and hunting, and incidentally visit relatives.

In September 129 roads earned $14,959,855, an increase of $2,790,815 over September, 1897. Since July 1 the same roads have earned $227,398,403, an increase over the corresponding period of 1897 of $37,485,394.

Engineer Bert Crosby and Firemen W. Kohlbach and G. W. Conkling, of the Nickel Plate, are on the off duty list. Mr. Conkling accompanied his family to Chicago to see the peace carnival and visit friends two or three days.

On roads in the Central Traffic association reduced rates will be made for Thanksgiving day for the first time in the history of the roads. Tickets sold on November 24 will be good to return on the 25th, the reduced rates applying to points within a limit of 150 miles.

Travel on the Nickel Plate is so heavy that all the passenger trains have one to three extra coaches. No. 5 last evening ran in two sections. Freight business is also very good on this road. The extra trainman has no grounds for complaint on account of work now; he gets all he can do.

The large passenger engines on the Pennsylvania, with eighty-inch driving wheels, are making great records for speed with heavy trains, between Altoona and Jersey City, often with ten to twelve cars in the train, taking a seventy-mile-an-hour pace and maintaining it for a considerable distance.

Thomas Manifee, one of the oldest engineers in time of service on the Vandalia, who was dismissed after the accident to the train carrying delegates to the Young People's Christian Endeavor association when en route to California, shortly after secured a position on the Wabash, and the trainmaster's report on the Wabash credits him with the best work with a compound engine, he with engine 71 hauling 1,845 tons of freight.

W. Rohlfing, night car repairer at the east shops, is at work again, after a visit of a few days with friends in Lima.

It is stated that the Pennsylvania lines carried 52,458 passengers to Pittsburg last week to the Knights Templar meeting.

On November 1 the Chicago and Alton will inaugurate a new fast limited train from Chicago to southern California, to be known as the Pacific Coast limited, running over the Chicago and Alton railroad, the Iron Mountain, the Texas Pacific, to El Paso, and the Southern Pacific to Los Angeles. The trains will leave Chicago on Tuesday and Saturday of each week.

The Pennsylvania company is building at its shops in Columbus five elegant coaches for the Panhandle and five for the Pittsburg, Fort Wayne and Chicago, and two combination coaches which are to be put in service between Louisville and Chicago, via Indianapolis. The coaches are wide vestibuled, with plate-glass windows, with a smoking compartment like that of the Pullman cars.

STRIKE AVERTED.

ST. LOUIS, Oct. 20—It was learned today that a strike of engineers and conductors on the Missouri, Kansas and Texas railroad, over the question of reinstating three discharged conductors, has been averted, the company agreeing to take back two of the men. After a secret conference between the employes' committee and railroad officials, ending last night, the latter at first refused to accede to the demand that the conductors be restored to work. The trainmen then threatened to call an immediate strike of the conductors and engineers.

Another conference was held, the company finally agreeing to let all but Conductor Knock return to their old places. This satisfied the grievance committee.

SAW MANY CHANGES.

I. Blystone Visits the Scenes He Left Fifty-eight Years Ago, in Pennsylvania.

I. Blystone, of Oak Grove, on the Goshen road, has returned from a visit to his old native home in Pennsylvania. Of all the associates he had when he left there so many years ago he found but one person living, but their children and grandchildren had grown up and greeted him with most cordial friendship. He also visited a neighborhood twenty miles away from his old home, a place where he had parted with several cousins in 1840, during the hard cider and log cabin campaign of General Harrison and Martin Van Buren. He found but two persons living of those he left fifty-eight years ago. These incidents make one reflect on the course of events.

May Henninger has disappeared, and it is believed that she went with Nick Lorain, with whom she was keeping company. The girl was arrested two weeks ago on request of her mother, but a Lakeside lady interferred in her behalf, and the mayor allowed May to go on a promise of good behavior.

TWO GRATEFUL WOMEN

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

"Can Do My Own Work."

Mrs. PATRICK DANEHY,
West Winsted, Conn., writes:

"DEAR MRS. PINKHAM:—It is with pleasure that I write to you of the benefit I have derived from using your wonderful Vegetable Compound. I was very ill, suffered with female weakness and displacement of the womb.

"I could not sleep at night, had to walk the floor, I suffered so with pain in my side and small of my back. Was troubled with bloating, and at times would faint away; had a terrible pain in my heart, a bad taste in my mouth all the time and would vomit; but now, thanks to Mrs. Pinkham and her Vegetable Compound, I feel well and sleep well, can do my work without feeling tired; do not bloat or have any trouble whatever.

"I sincerely thank you for the good advice you gave me and for what your medicine has done for me."

"Cannot Praise It Enough."

Miss GERTIE DUNKIN,
Franklin, Neb., writes:

"I suffered for some time with painful and irregular menstruation, falling of the womb and pain in the back. I tried physicians, but found no relief.

"I was at last persuaded to try Lydia E. Pinkham's Vegetable Compound, and cannot praise it enough for what it has done for me. I feel like a new person, and would not part with your medicine. I have recommended it to several of my friends."

Large Crowds Watch Them in Their Interesting Work of Art.

Backman's glass blowers, who are giving an exhibition in the Trentman block, on Calhoun street, are most interesting workers to watch. Their work is truly that of artists. They form all sorts of things out of glass and even go so far as to make glass dresses out of finely woven glass. Several patterns are on exhibition in the room which they occupy.

Another exhibit which is of great interest is an engine such as is used on board of steamboats. It is made entirely of glass and during exhibition hours puffs and steams away at a merry gate. The engine is a subject for study and never fails to attract great attention.

An exhibition is given of how fine glass can be spun. After the glass passes through it is as thin and fine as the smallest strand of silk. Last night the exhibition was witnessed by many people and they all went away being highly pleased with what they saw and received, every visitor being presented with a present of some kind.

SHEDSKIN 20 TIMES

My little boy broke out with an itching rash. I tried three doctors and spent $50 all to no avail. He kept getting worse. They said there was no cure for it. I was about discouraged, when a friend advised me to try S. S. S. I did so, and before he had taken one bottle I could see a change for the better. He continued its use for a few weeks longer, and was entirely cured. He is now a strong, healthy boy, and has never had a return of the disease. I cannot say too much for S. S. S. for it saved my child's life. MRS. ELIZA WHITE, Cedar Bluff, Ala.

A SPANISH ROMANCE

Dowey Had No Battle With Rebels at Manila.

Navy Department Gives Story No Credence.

Insurgents Have Nothing to be Called a Navy.

Spanish Hope to Profit From the Report —General Otis Cables That All is Well in the Philippines.

WASHINGTON, Oct. 20.—The sensational Spanish report of a naval battle between Admiral Dewey's vessels and the insurgent navy in the Philippines is received with absolute incredulity in both the navy and war departments. If there has been any recent action, Admiral Dewey has failed to mention it, and neither General Otis nor United States Consul Williams have regarded it as worthy of notice.

ORIGIN OF THE STORY.

It is believed at the navy department that the Spanish authorities refer to the seizure of the little steamer Abby by the McCulloch on September 23 last. The steamer was of American register though formerly known as the Pasig. It was reported to Admiral Dewey that she was bringing arms and supplies of war to the insurgents. He sent the McCulloch to stop this movement but when the cutter found the Abby in Batanzas bay the latter vessel had landed her cargo of arms, and the insurgents refused to give them up.

Thereupon the Abby was seized and taken by the McCulloch to Manila. This affair could not be dignified with the name of a naval engagement and Admiral Dewey in reporting the seizure to the navy department made mention of it.

It is just possible that there have been some similar incidents not deemed worthy of report in the islands of Cebu or Panay, as it has been reported that some insurgent vessels have been carrying arms to spread the insurrection in those islands and Dewey would have repressed them.

"During the month twenty-eight deaths, eight small pox; eight typhoid fever; five malarial and intestinal complaints; three complications."

General Otis cables considerable more than the above, but the department does not deem it advisable to make the other portions of the dispatch public, because of its bearing upon the peace negotiations. It contains suggestions by General Otis regarding the disposition of the Philippines, and also information about the insurgents.

INSURGENTS HAVE NO NAVY.

But the reports to the navy department show that it is absurd to speak of an insurgent navy seriously, for the entire force consists of a few schooners, and one or two little coasting steamers. All put together they would be no match for the least of the vessels under Dewey's command.

The explanation of the admiral's interference with these vessels is their operations in a desire on his part to maintain the status quo in the Philippines pending the conclusion of the peace commission's work in Paris. It is said here that it is not surprising that the Spanish cabinet is trying to make much of any incident that can be twisted into a demonstration of natural hostilities between the occupying American forces in the Philippines and the insurgents, for that would be ground to sustain the contention they are sure to put forward when the Philippines comes under consideration before the Paris commission that the United States forces never have been able to take possession of and hold territory outside of Manila proper.

Under the rules of international laws such a point would be entitled to serious consideration in determining what disposition should be made of territory.

SITUATION IS IMPROVING.

WASHINGTON, Oct. 20.—The war department today posted the following bulletin:

Under date of yesterday, General Otis added the war department the following:

"Situation in Luzon somewhat improved. Influence of Filipinos of education and property not desiring independent government, but hostile to Spanish gaining ascendancy in revolutionary councils.

"Promising nothing, but enforcing the law. Complications seriously affect inter-island commerce and diminish revenue. Affairs progressing favorably, though sickness increasing, owing mostly to carelessness of enlisted men. Health of officers good. Condition of city and facilities for quartering troops improving. Fever decreasing. Intestinal troubles about the same. Many slight ailments. Small pox apparently arrested.

CONVENTION CLOSED.

Session of the Woman's Foreign Missionary Society Ended—Much Work Done.

The two days' convention of the Woman's Foreign Missionary society of the Fort Wayne district came to an end at Wayne street church last evening. The most interesting feature of the program was the address by Mrs. J. H. Gill, who related her experience as a missionary in India. Twenty-seven years ago she went to that country and her labors have been almost entirely in behalf of the women and girls of that benighted land. During her stay there she had the opportunity of seeing the Methodist missions grow a great deal. At the close of Mrs. Gill's talk an informal reception was held. The next convention will be held at Huntington.

NUPTIAL TIES.

Wedding of Mrs. H. B. Borden and Lieut. Harry Clement.

Taft-Harrison Wedding Last Evening a Brilliant Affair—Several Other Matrimonial Events.

At Piqua, Ohio, on the evening of October 19, at the residence of her sister, Mrs. Charles Locke, Mrs. Henry B. Borden, nee Mary Edgerton Nelson, grand daughter of Mrs. Joseph H. Edgerton of this city, was married to Lieutenant Harry Clement, of the Twenty-first United States infantry.

The groom is a Virginian by birth. During the recent Cuban campaign, with his former regiment, the Twenty-second United States infantry, he participated in the battle of El Caney. He has but recently recovered from fever contracted during the campaign.

As soon as his leave expires, Lieutenant Clement and his bride will go to Plattsburg, New York, where the Lieutenant will join his regiment. The new military post at Plattsburg is one of the largest and most desirable garrisons in the country.

TAFT-HARRISON.

At the residence of Mrs. Mary Harrison last evening occurred the marriage of her daughter, Josephine, to Frank L. Taft, the ceremony being performed by Rev. D. W. Moffat. The house was handsomely decorated with autumn foliage and under a charming canopy of sepsum, vine and chrysanthemums the bride and groom stood during the wedding service. The ring ceremony was used. Two little flower girls, Alice Foster and Sinclair Battersley, preceded the bride upon her entrance into the parlor, and upon her appearance the Lohengrin wedding march was played by Charles Adams, of Chicago. The bride was elegantly attired in a white silk poplin gown and wore a veil of tulle. After the ceremony congratulations were received by about fifty guests. An elaborate wedding supper was served. The bride and groom left on the Pennsylvania limited for the east, to spend their honeymoon. They will be at home in the city after November 16th, at their home, 59 Columbia avenue.

The out of town guests were Mr. and Mrs. Harry Downing, of Redmond; Mrs. Eliza Murdoch, son and daughter, Mrs. Richard Pennington and Mrs. Will Godfrey, all of Chicago; Mr. and Mrs. Charles Saylor, of Omaha, and Mr. and Mrs. Daniel Taft, of Columbus, Ohio; Mr. and Mrs. P. W. Smith, of Richmond; Mrs. Dr. Burkett, of Warsaw; Mr. and Mrs. Charles Adams, of Chicago.

HOOSMAN-PARISH.

Rev. W. D. Parr, of this city, officiated at a wedding at Indianapolis Tuesday evening, the contracting parties being James F. Hooter and Miss Martha McBride. The bride is a daughter of Judge and Mrs. R. W. McBride.

WESTERBERG-CORNELIUS.

Last night Alfred Westerberg and Miss Eugenia Cornelius were united in marriage by Father Dunleavy, the ceremony taking place at the episcopal residence. After the service a reception was held at the home of the bride's parents, 374 West Jefferson street. The groom is the head tailor in the Rahea establishment.

VAN HOOZEN-PARISH.

Last evening at the Plymouth Congregational church parsonage Rev. J. S. Almale married William M. Van Hoozen and Miss Helen F. Parrish. After the ceremony was performed the couple repaired to the homestead of the groom's parents, in Aboite township. Mr. and Mrs. Van Hoozen will reside in Aboite, he being a rising young farmer of that section.

CASHIER GONE.

Stole Thousands From a Louisville Bank and Fled.

LOUISVILLE, Ky., Oct. 19.—It has developed that Charles H. Banning, individual bookkeeper at the Bank of Louisville, is defaulter in a sum ranging between $8,000 and $10,000 and that he has fled from the city.

Banning's downfall is said to be due to wine, women and a broken engagement with a St. Louis girl. The marriage was prevented on account of Banning's indifference in religion, Banning being a protestant and she a Catholic. Banning was one of the bank's most trusted employes.

Congressional Nomination Invalid.

HARRISBURG, Pa., Oct. 20.—Judge Simonton, of the Dauphin county court, has filed an opinion in which he holds that the certificate of nomination of Congressman Thomas S. Butler, who obtains the republican nomination in the Sixth district, is invalid, because he was not regularly nominated. Butler's certificate was objected to by ex-Congressman John Robinson, of Delaware county, who has filed nomination papers as an independent candidate.

WITH RAILROAD MEN

Notable Reception to President in Chicago.

Warmly Greeted by the Railway Brotherhoods.

An Informal but Very Pleasant Occasion.

Chief of All the Organizations Were Present—Mr. McKinley Makes a Brief Address.

CHICAGO, Oct. 20.—The weather for today, the last day of Chicago's peace jubilee, was even worse, if possible, than that of the preceding three days. Rain fell fitfully and a cold breeze blew consistently. Preceding the chief event, the railroad employes' reception to the president, Mr. McKinley spent the time quietly at the home of Captain Mc-Williams, receiving only a few callers and being engaged period ly with Assistant Secretary Corbyn. At 1:30 p. m. the president was driven to the First regiment armory, where together with Mayor Harrison, he was received by a large gathering of railroad employes.

After the reception the president addressed the railroad men, chiefly from them the warmest applause.

The armory where the railway employes and the president met was gaily festooned and the galleries were hidden behind the folds of "Old Glory." The president appeared upon the seatoned of the main balcony and spoke briefly to the assembled railway men, who represented every branch of the service.

The mass meeting was in the nature of a formal opening of the three days' conference of railway employes called to draft measures for national and state legislation applying to organized railroad labor. In the gathering were represented the brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen, the Brotherhood of Railway Trainmen, the Order of Railway Conductors and the Railway Telegraphers' union.

The bells' auxiliary in each of the orders assisted in the reception to the president. A throng gathered outside the armory two hours before to cheer Mr. McKinley upon his arrival. Mr. McKinley's party was conducted to the first balcony, from which he looked out upon the thousands of railway men.

CHEERED THE PRESIDENT.

The gallery overhead were filled with men, women and children, who cheered whenever an opportunity presented itself.

Many of those gathered on the drill floor were in the delegations of railway men that visited the president at Canton during the campaign period. The ambassadors of the reception accorded to President McKinley upon his arrival at the armory was sufficient assurance that the railroad men appreciated his presence. The armory was crowded when the exercises were opened with prayer by Dr. Emil G. Hirsch. Chairman J. H. Walsh, of the Brotherhood of Locomotive Engineers, presided and delivered the opening address. He then introduced Mayor Harrison who delivered the address of welcome to President McKinley. The president's response was listened to attentively and frequently interrupted with applause.

THE OTHER SPEAKERS.

Following President McKinley came Judge John Barton Payne, of Chicago, who spoke briefly. Other speakers on the program were:

George E. Pack, who was followed by the presidents of the railway organizations: E. Clark, of the Order of Railway Conductors; F. P. Sargent, of the Brotherhood of Locomotive Firemen; P. H. Morrissey, of the Brotherhood of Railway Trainmen; P. M. Arthur, of the Locomotive Engineers.

An informal reception for the railway men was held by the president after the addresses. Mr. McKinley was stationed in an inclosure on the first balcony reserved for veterans, where the railway men filed by singly.

As they came up to the president, one by one, they extended their hands. The president grasped each hand held out to him.

The disagreeable weather had no visible effect upon either the size of the crowd which cheered the president at the armory or upon the enthusiasm. The people stood for hours in the pavements awaiting the parade, made light of the rain. The railway men were all admitted into the armory by ticket. A number of distinguished guests from Washington were present and composed the group which surrounded the president on the balcony.

The railroad reception at the armory was President McKinley's last public appearance in Chicago during the jubilee, wet weather having necessitated the postponement of the Mayor's parade.

The presidential party will leave at 11 o'clock tonight on the Pennsylvania special train.

PRESIDENT'S PANORAMIC SPEECH.

At the peace jubilee banquet last night President McKinley spoke. And this is what he said:

"It affords me gratification to meet the people of the city of Chicago and to participate with them in this patriotic celebration. Upon the suspension of hostilities of a foreign war, the first in our history for over half a century, we have met in a spirit of peace, profoundly grateful for the glorious triumphs just already ended, and earnestly wishing in the final termination to realize an equally glorious fulfillment.

"With no feeling of exultation, but with profound thankfulness, we contemplate the events of the past few months. They have been too serious to admit of boasting or vain glorification. They have been so full of responsibilities, immediate and prospective, as to admonish the soberest judgment and counsel the most conservative action. This is not the time to rise the imagination, but rather to discover in calm reason the way to truth and justice and right, and when discovered to follow it with fidelity and courage, without fear, hesitation or weakness.

GRAVE RESPONSIBILITIES.

"The war has put upon the nation grave responsibilities. Their extent was not anticipated and could not have been well foreseen. We cannot escape the obligations of victory. We cannot avoid the serious questions which have been brought home to us by the achievement of our arms on land and sea. We are bound in conscience to keep and perform the covenants which the war has sacredly sealed with mankind. Accepting war for humanity's sake, we must accept all the obligations which the war imposes upon us. The splendid victories we have achieved would be our eternal shame and not our everlasting glory if they led to the weakening of our original lofty purpose or the dishonor of the immortal principles on which the national government was founded and in accordance with whose unfolding spirit it has ever since been faithfully administered.

"The war with Spain was undertaken not that the United States should increase its territory, but that oppression at our very doors should be stopped. This noble sentiment must continue to animate us, and we must give to the world the full demonstration of the sincerity of our purpose.

LET US DO OUR FULL DUTY.

"Duty determines destiny. Destiny which results from duty performed may bring anxiety and perils, but never failure and dishonor. Pursuing duty may not always lead by smooth paths. Another course may lead to greater material riches, but pursuing duty for duty's sake it always sure and safe and honorable.

"It is not within the power of man to foretell the future and to solve unerringly its mighty problems. Almighty God has His plans and methods for human progress, and not infrequently they are shrouded for the time being in impenetrable mystery. Looking backward we can see how the hand of destiny pointed for us and safely led us through those full morning. We were not apprehended even by the wisest statesmen of their times. Our colonial ancestors did not enter upon their war originally for independence. Abraham Lincoln did not start out to free the slaves, but to save the union. The war with Spain was not of our seeking and some of its consequences may not be to our liking. Our vision is often defective. Shortsightedness is a common malady, but time does not get to change or even get to us the clearer our view and the less obscure our duty. Patriotism must be faithful as well as fervent; statesmanship must be wise as well as fearless—not the statesmanship which will command the applause of the hour, but the judgment of posterity.

PROGRESS PREVENTS DEGENERATION.

"The progress of a nation can alone prevent degeneration. There must be new life and purpose or there will be weakness and decay. There must be broadening of thought as well as broadening of territory. Territorial expansion alone and always necessary to national advancement. There must be a constant movement toward a higher and nobler civilization, a civilization that shall make its conquests without resort to war and adorn its greatest victories pursuing the arts of peace. In our present situation duty and duty alone should prescribe the boundary of our responsibilities and the scope of our undertakings.

"The final determination of our purpose awaits the action of the ordinary men who are charged with the making of the treaty of peace and that of the senate of the United States, which, by our constitution, must ratify and confirm it. We all hope and pray that the confirmation of peace will be just and humane as the conduct and consummation of the war. When the work of the treaty-makers is done the work of the lawmakers will begin. They will settle the extent of our responsibilities; the other must provide the legislation to meet them. The army and navy have nobly and heroically performed their part. May God give the executive and congress wisdom to perform theirs."

Secretary Mahlor, of the board of charities, says that thieves have been stealing potatoes from the patches cultivated by the society during the summer. This is about as low as any person can stoop—virtually stealing from the mouths of the suffering poor.

PERIL IN EXPANSION

Herbert Says America Must Not Take Tropical Lands.

Former Secretary of the Navy Insists That the Country Can Defend All Its Interests.

NEW YORK, Oct. 20.—Hilary A. Herbert, former secretary of the navy, in replying to the toast "Our Place Among the Nations," at the dinner of the Quill club last night, spoke against colonial expansion in the tropics. He said:

"Will the dangers ahead of us overcome the nation? Will this great government fall by its own ambition, or will it go on as it has in the past, leading the way among the nations?

"We are forty-five equal states capable of enjoying the blessings of free government. Our navy is fifth among those of other nations, but our shipbuilders have no superiors, and Dewey, Sampson, Schley and Watson have shown that our sailors are equal to any afloat.

NO NEED OF FOREIGN ALLIANCES.

"The United States can defend their interests on the high seas wherever their interests may be. It may cost money, but there is no need of a foreign alliance.

"No thoughtful man can deny there are dangers ahead of us, but they lie in another direction. We have passed the parting of the ways. Alaska is colony No. 1, Hawaii is colony No. 2, Porto Rico is No. 3, Cuba will gravitate into the union and is colony No. 4. The Philippines may come in and be colony No. 5, or they may be divided up so that one of them may be colony No. 6. No one can say these countries today are capable of being part of this nation.

"Their people are incapable of self-government. When will they be capable? Will it be when they are Americanized?

IMMATURE BY DIFFERENT PERIODS.

"Take the answer from the history of the British West Indies, the French West Indies, the Dutch or British West Indies. Experiments have been tried there for 200 years and they have not been successful. The cardinal and insuperable objection to the colonization of tropical countries is that they are already inhabited by an inferior population. No Anglo-Saxon has been able to change Jamaica and other West Indian islands.

"I believe our navy ought to be increased, whether we have more colonies or not, but if we increase our colonies we must build a navy equal to that of any nation afloat."

Mr. Herbert said if we could take in our sixth and six acres our numbers better it would be wonderful, but if Canadians did not care to join us we should stand as we are and preserve the union without inviting disaster by experiments not in accord with our institutions.

OFF A SCAFFOLD.

Edward Redding Falls at the New Court House.

His Leg Fractured—Bones Belonging to Jeremy Sherlock Alight Case—Other Injuries Killed.

At 1 o'clock this afternoon Edward Redding, a workman at the court house, was in the act of stepping from a scaffold, when he lost his balance and fell to the floor, a distance of thirty feet. His leg was fractured.

The city patrol conveyed the injured man to the St. Joseph hospital, where Dr. O. C. Stoneen reduced the fracture. Redding is twenty years old and has been employed as a helper. His home is at St. Louis.

A strange coincidence in connection with the accident is that one year ago today the father of the unfortunate young man fell at the court house building, sustaining a similar injury.

HORSE KILLED.

This afternoon as the line repairers of the Jeremy Electric Light and Power company were working on East Superior street, the team hitched to the wagon containing the tool kit, ran away. In making a short turn at the corner of Superior and Clinton streets one of the runaways fell. In falling its head struck the stone curbing and it was instantly killed.

Hon. S. M. Ralston, democratic candidate for secretary of state, addressed a democratic meeting in Lewis' hall last night and was given a warm greeting by a good sized audience. Judge S. M. Bench, of this city, was also one of the speakers.

Railroad Y. M. C. A. Convention Opens Tonight.

Incoming Trains Bring in Hundreds of Delegates.

Visitors Assigned to Various Homes and the Hotels.

Meeting This Evening at the Baptist Tabernacle and Opening Address by Dr. Cantield, of Ohio University.

Tonight, at the Baptist Tabernacle, will be held the opening session of the international conference of the Railroad department of the Y. M. C. A., an event for which preparations have been going on for the past three months.

It is an event of particular importance, for in those sessions to be held here will be transacted business that will interest every railroad association in existence. More workers in the Y. M. C. A. field will be brought together at this meeting than at any gathering of the kind ever held.

Bright and early today the reception committee reported at the railroad department to prepare for the arrival of delegates. This committee consists of Secretary J. W. Burns, chairman; J. E. N. Dillon, F. M. Manil, A. D. Craig, Amos Sisc, C. B. Stenson, C. H. Newton, H. A. Philley, R. E. Daly, Robert J. Hamilton, Martin Kanage, J. R. Parry, E. B. Phillips, M. G. Wright, J. H. Wagner, A. H. Pollmann, James Tryhall, Charles Yager, Johner, F. F. Bowser, Benj. Sanders, John G. Littlejohn, J. W. Parkins and S. B. Whitsell.

FIRST ARRIVALS.

The first arrivals came over the Wabash from the west, when twenty-six from Illinois and Missouri points reported. A few also came in on the road from eastern points. Something over one hundred came in over the Nickel Plate from the east and north, a good sized crowd came in over the Grand Rapids and Indiana, the Lake Shore and Michigan Southern, the Lake Shore and Illinois brought in small delegations. Several hundred will arrive on the Pennsylvania train No. 9, from the east, late this afternoon, and by 9 o'clock this evening it is expected that at least 200 delegates will be registered at the rooms of the assignment committee in the First Presbyterian church. For such accommodations as have been lacking the committee has arranged for the entertainment of delegates at hotels. About 200 are to be thus distributed, leaving about 300 to be cared for at private homes.

The meeting will open this evening at 8 o'clock at the Baptist Tabernacle. The address of welcome will be delivered by Rev. D. W. Moffatt, pastor of the Presbyterian church, after which J. H. Canfield, LL.D., president of the Ohio university, will be introduced and will deliver the opening address of the convention. Dr. Canfield's remarks have been noted in the Y. M. C. A. work, he especially qualified to deliver the speech that shall set the whools of this great convention in motion.

MORNING PROGRAM.

The program for tomorrow morning will be as follows:

Song service, conducted by C. B. Willis, general secretary at Milwaukee.

Devotional exercises, led by C. Upham, of Canada.

Topic, "Relation of the Railroad Department to the Spiritual Life of Railroad Men," by A. M. Watt, general master car builder of the Lake Shore and Michigan Southern railway.

Topic, "Thorough Organization Essential to Success," by W. J. Latta, general agent of Pennsylvania company at Philadelphia.

Association Bible study, conducted by D. A. Budge, general secretary at Montreal.

COL. MAY IS HAPPY.

Begins to See Daylight in the Mustering-Out Work.

Medical Examinations Proceeding Satisfactorily—Camp Hospital Will Be Continued as Long as Needed.

INDIANAPOLIS, Oct. 20.—When seen last night Colonel May was seated all over and nearly all that he could say was:

"We are now beginning to see daylight."

The situation is assuming a more optimistic appearance at Camp Mount. For a long time Colonel May looked very blue, but the shadows have passed over and everything is now rapidly moving toward the mustering out of the troops in camp. Nearly all of the recruits have been completed and the ordinance turned in and receipted for.

The medical examinations are what are delaying matters more than anything else. But the examiners were very busy yesterday and made excellent progress. One set of doctors examined 326 men of the One Hundred and Fifty-seventh and they were very well satisfied with the condition of the soldiers. They are the best lot of men that have been inspected since the war was begun. Of the One Hundred and Fifty-eighth, ninety soldiers were examined and it is hoped that the examination of this regiment will proceed with more rapidity in the future. Also twenty of the battery boys from Fort Wayne passed the physical examination.

The soldiers were all in a much better humor yesterday because the state has decided to take back the articles which it tried to force the boys to keep. Colonel May said that this action on the part of the state was more than right, for the goods were in most instances not worth anything. He further said that if the state had come to this decision sooner the mustering out of the first regiment in camp would in all probability have been over by this time.

There were forty sick men confined at the hospital in the Administration building last night, but none of them was in a serious condition. Most of the men are suffering with malaria and there are also several cases of typhoid, but these are not at all dangerous. Colonel May telegraphed to Washington on Tuesday explaining the necessity of maintaining the hospital, as all of the physicians were busily engaged with the mustering out examinations. In reply he received orders yesterday to keep the hospital so long as there was any need of it.

WAITING FOR WORD.

Spanish Peace Agents in Need of Instructions.

Senator Sagasta Helpless and Will Play the Game Accordingly—Affairs in Porto Rico.

PARIS, Oct. 20.—The Spanish peace commissioners have not yet received from Madrid either instruction or permission to bid adieu to Cuban sovereignty without further seeking to attach to this sovereignty some condition providing for the assumption of the Cuban debt by the United States.

If they are sent at present disposed and instructed, the Spaniards will not at tomorrow's meeting recognize affirmatively the United States' position and will stop on the point of results.

Should they flatly reject American insistence the Spaniards, while recognizing the physical power of the United States against maimed Spain, will humbly extend their palms upwards and shrug their shoulders.

They regard the situation as pitiable and are not averse to any sympathy it may excite. They affirm that the American answer to their data propositions is very long and that they have not had time to read it more than fully upon it. They, thus far, apparently intend not to yield, and will tomorrow make another written presentment and expand an extended discussion thereon.

Whether they will tomorrow be met with, or at the close of the session receives to Cuba the American ultimatum of terms and time, must be then developed. While this is possible it is now not quite probable.

SPANIARDS IN PORTO RICO.

SAN JUAN, Porto Rico, Oct. 20.—The city remains orderly and all is quiet elsewhere. Major General Brooke is installed in the palace and Brigadier General Henry remains as commander of the district of Ponce. Brigadier General Grant has been appointed commander of the district of San Juan.

Senores Rivera, Blanco, Lopezand Carbonne, ministers of the consular government, have tendered their resignation to General Brooke, stating that they will perform their functions, if desired, until their successors are appointed.

The first general order issued by General Brooke is in dignified, fair document, and has been well received by the people.

The postmasters here under American auspices is being established with all possible haste.

United States special commissioner Carroll, arrived here yesterday on board the steamer Panama.

LOCAL LINES.

Mr. and Mrs. Frank J. Graber, Mr. and Mrs. Louis Fox, and Mr. and Mrs. Ryan were among the Fort Wayne people who attended the peace jubilee in Chicago this week.

Everybody who owes belongsd to the A. O. U. W. and has severed his connection with the order is especially invited to attend the meeting of Lodge No. 36 this evening. Odd Fellows' hall (second floor) on West Berry street. The grand master workman will lecture upon the order and explain the new plan of assessment, reinstatement, etc. It is hoped the lodge room will be crowded.

Delmer Kellogg, drill master for the coming attraction of "Ben Hur," arrived in the city today and the organization of the cast will begin at once. Mr. Kellogg comes from Anderson, where the entertainment proved a great success financially and otherwise. The selection of characters will be completed by next Monday, when a list of those taking leading parts will be published.

Last evening a special train on the Lake Erie and Western railway carried five car loads of Fort Wayneites, including the Hibernians, to Bluffton, where a fair was being held at the Catholic church in that city. There was an immense crowd present and it was impossible for the Hibernians to give a drill. They did go through some military movements. Miss Gramss, of this city, was voted the handsome gold watch

France Keeps on With Her War Preparations.

Important Naval Experiments at Toulon.

A Secret Council of War Held at Brest.

Confidential Orders are Issued to the Garrisons—Naval Reserves Ready for Active Service.

PARIS, Oct. 20.—The alleged war preparations of France are the absorbing subject of discussion here at present. According to the French papers, there were important naval experiments at Toulon last evening.

A flotilla of torpedo boats was directed to make an endeavor to force the entrance of the harbor and the whole garrison was called to arms and the forts and batteries were manned, ready for instant action.

The result of the experiments has not been made public.

Vice Admiral Barrera presided yesterday at a secret council of war at Brest, in which the chiefs of the maritime forces took part. Confidential orders were subsequently issued to the garrison.

The Admiral asserts that five classes of the naval reserves around Brest have been ordered to hold themselves in readiness for active service.

NO SHRINKING FROM WAR.

LONDON, Oct. 20.—"It would be a great calamity if, after peace for upward of eighty years, our friendly relations should be disturbed and we should be launched into a great war, but there are greater evils than war and we shall not shrink from anything that is coming, knowing that we are supported by a united people."

This is the significant words Sir Michael Hicks-Beach, chancellor of the exchequer, enunciated a speech at North Shields last evening.

In opening his address he announced that the government had begun negotiations with the powers with a view of securing to the subjects of the various powers the right of "developing the respective spheres in which each country is specially interested."

Upon turning to the Fashoda question the chancellor said he wished cordially to acknowledge the desire evidenced in the speeches of Lord Rosebery and Herbert Asquith to help the government in the matter. "A matter," he added solemnly, "which might develop to the utmost gravity."

DENIES FRENCH CLAIMS.

"It is impossible," he continued, "for France to maintain that she had political rights at Fashoda. She has naturally and properly asked for time to receive Major Marchand's report, but until the contrary is proved I decline to believe that France wishes to withdraw. If she refused the matter would assume an aspect as grave as is possible between two great nations.

"The government is animated by the friendliest spirit toward France and does not wish to inflict humiliation.

"What we desire is fair treatment. Our work in Egypt is not completed. Africa is big enough for us both—for France in the west and ourselves in the east. Surely there is room for both to agree to respect each other's rights and claims.

"I hope, trust and believe," Sir Michael concluded, "the question is capable of a friendly solution, but this country has put her foot down. If unhappily another view should be taken by France, the queen's ministers know what their duty demands."

FRENCH MISSIONARY MURDERED.

PARIS, Oct. 20.—At the cabinet meeting today the minister of foreign affairs, M. Delcasse, read a dispatch from the French minister at Pekin, M. Gerard, announcing that Father Rouleux, a French missionary, had been murdered in the province of Kan Suh.

"What we desire is that France will not hold political rights at Fashoda. THE PATIENT DIES.

Yellow Fever Carries the Breath of Miss Cook at Warren, Ohio.

WARREN, Ohio, Oct. 20.—The case of yellow fever in Paris township, Trumbull county, resulted in the death of the victim, Miss Blanche Cook, aged twenty-eight years. There have been no other developments of the disease. Miss Cook recently fled from Mississippi, coming to this country from from Tennessee.

TUG BOAT SINKS.

The L. R. Smith in a Collision at the Mouth of Cleveland Harbor.

CLEVELAND, Ohio, Oct. 20.—The big tug, L. R. Smith, was sunk in the harbor entrance today in a result of a collision with the steamer Olympia. There were three men on the tug. The captain and engineer jumped just as the went down and were rescued after a long and desperate battle with the waves. When picked up by a boat from the Olympia the men were well nigh exhausted. The steamer went down with the tug and was drowned. The Olympia was uninjured.

DEMOCRACY is a winner this year.

THE Philippine insurgents are preparing to go entirely out of business. They have begun to monkey with George Dewey.

THE people are going to elect Hon. George V. Hall to the state senate because of peculiar, contingencies which make his election a necessity. That is to say, they do not purpose that Allen county shall be passed by the silver element.

MR. CROKER'S determination to start another big sensation in New York because the finish organization has been denouncing one governor's preferred hand. General Shafter is not obliged to like General Miles if he would rather not, but such conduct will not do much to dissipate the public belief that the man who commanded at Santiago is much less a hero than some of the subordinate generals who were in the fighting and under fire.

LATEST reports to the state department tell of a marvelous development of ship building in Japan. United States Consul Harris, at Nagasaki, says that there has just been launched there the largest steamship ever launched outside of American and European waters. This is the Hitachi Maru, built by the Mitsu Bashi company, at Nagasaki, and her displacement is 11,600 tons. This is classed by Lloyds as 100 A 1. Her sister ship will be built at once. There was also opened at Nagasaki a new granite dock 371 feet long and besides a complete and powerful plant the ship building company has laid its yards for vessels up to 400 feet long which can also be docked there. The company employs 2,000 men.

MACHINERY AGAINST LABOR.

The results of a thorough investigation ordered by congress and just completed, showing the effects of machinery on labor and incidental questions, constitute the thirteenth annual report of the commissioner of labor. The report among other things says:

"There should be no quarrel with the conclusion that machinery has lowered the cost of products, and when it is known that under the machine method there is an increased demand for labor, as a rule, the bearing of the supply of labor becomes problematical. Sometimes there is a lack, oftentimes a surplus of labor. The statistics presented consider each operation and process of labor separately. In agriculture the figures show among other things that under the primitive methods the time required for plowing one acre of ground varied from five to eight hours, and under the modern five to seven hours and forty-two minutes where two horses were used and from three hours and four minutes to six hours and forty minutes with three horses. Fertilizing ground required twenty-five hours under the earlier wagon and shovel method and but one hour by the modern drill. The small grain harvesting with self-binder has reduced the time for cutting and binding and stacking to about one-eighth of that under the primitive system. In thrashing the ratio of time used is more than 32 to 1 in favor of the machine. In corn planting the old method took nearly six times as long. One of the comparisons shows the manufacture of 1,000 one pound loaves of bread is reduced in cost from $3.39 to $1.55, and in time from twenty-eight to eight hours. In making 500 pounds of daily butter machinery cut the cost down from $10.55 to $1.70, and from 125 to twelve hours. In making matches the time is cut from 250 to twenty hours, and the cost from $91 to $3. In printing and publishing magazines, 10,000 copies, the labor reduction cited is from 3,170 to fourteen hours, and from $302.50 to $3.62. In mining 100 tons of coal the hand cost in 1891 was $77.50, and the time occupied 312 hours. Machinery reduces this in 1897, to $43.40, and the time to 188 hours, while the number of workmen is reduced from forty-two to thirty-two."

MAGIC GOES WRONG.

Doubting Court Object Miracle Workers to the Michigan Penitentiary.

GRAND RAPIDS, Mich., Oct. 20.—Professor R. D. Leon, claiming to be a Laodoo Theosophist, was found guilty of larceny and sentenced to five years in the Jackson penitentiary.

The case against the alleged authority on oriental mysteries was peculiar. Leon came here last summer to teach Theosophy and mental curing, and soon had a large class of prominent society women in his public lectures he attracted Mrs. Tandler and she went to him to have her rheumatism cured.

The Hindoo learned the woman's husband had $300, and he persuaded her to let him put it into a box, with various incantations, and seal it up. The box was not to be opened until sixty days had passed and then the amount would be $600.

The woman's curiosity was stronger than her faith, so she opened the box, found it empty and caused a sensation by having Leon arrested.

KILLS TWO THEN SUICIDES.

Three Lives Ended by William R. Branton in Youngstown, Ohio.

YOUNGSTOWN, Ohio, Oct. 20.—William H. Branton, a grocer, shot Constable Jenkins, then Mrs. Branton, and closed the chapter of himicide by killing himself with the last bullet in his revolver last night.

The couple had been married only eight months. Recently Mrs. Branton left her husband on account of ill treatment and went to the home of her parents, Mr. and Mrs. John Kennedy. Last night she went back with Constable Jenkins, who had a writ of replevin, to secure her clothing. While the officer, Mrs. Branton and her husband were upstairs shots were heard, and when officers entered the room all three were dead on the floor.

It is supposed that Branton attacked his wife in a passion, and the officer in defending her was shot, and then the husband killed his wife and himself.

IN CHINA.

Horrible Spectacles Reported From Wu-Chow.

Eight Leaders of the Rebellion Publicly Beheaded—A Great Decoration of Merry-making.

VANCOUVER, B. C., Oct. 20.—According to the latest advices by mail from China, eight subordinate leaders of the Kwangsi rebellion have been beheaded at Wu Chow. They were carried in baskets through the principal streets as a warning spectacle, amidst the laughter and jeers of men, women and children. Ten thousand people witnessed the decapitation and made it a gala day. Little children copied their parents, who joked at the dying rebels a second before the axe fell. When all was over the children played among the headless bleeding corpses and made sport with the black, disfigured heads.

Mandarins and loadsmen improvised a sort of May pole and the heads of the rebels were placed on top in turn, the children dancing around them.

The governor advised the mandarins to make the beheading as festive as possible, so as to inspire disgust for the rebels in the hearts of the people. A banquet was afterward spread.

The Japan Mail says a petition has been sent to the government by foreign consuls requesting that the beheading be discontinued.

BRINGS MILLIONS IN GOLD.

Steamer Roanoke Lands With $2,500,000 From Alaska.

SEATTLE, Wash., Oct. 20.—The last and largest treasure shipment to come out of the Klondike gold fields arrived in Seattle yesterday on the steamship Roanoke. There was about $2,000,000 in actual gold dust on board, exclusive of the holdings of passengers, which would increase the total amount of dust to $2,500,000. The gold belonged to the two Canadian banks and to the North American Transportation Trading company. There were fifty-eight big boxes under guard in the Roanoke's strong room.

The big steamer reached port shortly before noon, fairly blank with people. There were several hundred passengers other than on the list. The trip from St. Michael's had been a rough one and several of the passengers were sick.

IN GREAT DIFFICULTIES.

Not a Safest Insurance Company in Japan.

VANCOUVER, B. C., Oct. 20.—The Hyogo, Japan, News says that with the exception of the Meiji Tenjkai and Kyoei Life Insurance company, every life insurance company in Japan is in difficulties, owing to their having their solvency tables too closely on British and American lines.

None of them can ever pay their bills. Every two or three months owing to enormous disasters, involving great loss of life, an insurance company responds paying. There is no system of depositing guarantees with the government, holders or heirs lose the benefit and extensive frauds are suggested.

PRISON CONGRESS CLOSES.

R. W. McClaughry Chosen President of the National Association.

INDIANAPOLIS, Ind., Oct. 20.—The National Prison association, at its closing session yesterday, voted to ask congress to establish a national bureau of identification.

The association elected the following officers: President, R. W. McClaughry, Joliet, Ill.; general secretary, Rev. John L. Milligan, Allegheny, Pa.; financial secretary, Joseph H. Ayers, Columbus, Ohio; treasurer, Charles M. Jessup, New York.

Among the directors are R. Brinkerhoff, Mansfield, Ohio; T. K. Ellison, Fort Wayne, Ind.; Charles H. Reeves, Plymouth, Ind.; A. T. Hart, Jeffersonville, Ind.

No Damage Denied.

ST. LOUIS, Mo., Oct. 20.—In the case of the Pittsburg Crucible Steel company against the Diamond Steel company, the United States court of appeals has handed down a decision in favor of the appellee, affirming the opinion of the lower court. The case was brought to restrain the appellee from imitating a trade mark of appellant and from selling goods marked with that trade mark or any simulation of it. The court decided that no damage had been sustained by the appellants.

Echo of a Lynching.

URBANA, Ohio, Oct. 20.—The circuit court has handed down a decision in the case of Ben Church against Champaign county for $5,000 damages. The suit grows out of the lynching of Click Mitchell two years ago and which gives the nearest kin $5,000. The common pleas court held the law unconstitutional. The circuit court held it to be constitutional. The case will now go to the supreme court.

Supposed Bank Robbers Captured.

SOUTH BEND, Ind., Oct. 20.—"Cyck" Allison has also been arrested, together with Harry Slater, for complicity in the robbery of the Holland, Mich., bank, and $100 in gold has been recovered, the coin showing marks of an explosion. Altogether $11,000 was taken, and the police authorities report that they already know where the bulk of the money is secreted.

Wife Murderer Executed.

GRANITE FALLS, Minn., Oct. 20.—Joe Ott, who pleaded guilty of killing his wife, was hanged in the jail yard here at 10:27 a. m. Ott made a statement from the gallows expressing sorrow for the crime. This was the first exception to the history of Yellow Medicine county.

Late this afternoon Sheriff Melching received a telegram from Woodburn asking him to send his bloodhounds to that place to pursue a rapist. Deputies Whitney and White left at once with the dogs.

BOYS GO ACQUIT.

Woodburn Young Men Not Guilty of Trespass.

Justice Ballerman Heard the Case This Morning—Marriage Licenses—Court Notes.

John Korte, of Woodburn, came to the city yesterday and in Justice Ballerman's court swore to affidavits charging Charles Goodling, Lawrence Hoover and Henry Killian with trespassing on his property.

Constable Kenneller went to Woodburn last evening and brought the young men to Fort Wayne. Justice Ballerman heard the story this morning.

Korte had placed a fence across a roadway on his property which had been in public use for fifty years. The roadway led to a sand bank on the Maumee river.

After the fence was up Korte charged 10 cents to drive across his land to get sand. This enraged the neighbors and somebody tore down the fence.

Korte charged the young men passed above with trespass, but the evidence failed to show their guilt and they were acquitted.

NOTES.

Judge Dawson this morning dismissed the case of Martin vs. Maxfield.

The board of commissioners are this afternoon considering the establishment of the Hathaway road, in the eastern part of the county.

SHORT APPLE CROP.

Germany Will Have to Import Fruit From the United States.

WASHINGTON, Oct. 20.—Germany is about to have an apple crop smaller in quantity and poorer in quality than has been gathered in recent years, according to United States consul general, Frank Mason, at Frankfort. Other apples this year command three times the usual price, he says, and no cider will be made outside of Wurtemburg. Even cooking apples of an inferior grade are now selling in Frankfort for eight to nine cents a pound. This deficiency is said to extend more or less generally to France, the Tyrol, Bohemia and northern Italy, so the conditions favor a large importation of American apples, though whether this will be possible or not will depend first on the supply in the United States, and second, the spirit in which the German officials enforce the inspection laws.

SCHLEY IN COMMAND.

Appointed as Chief of the Naval Station at San Juan de Porto Rico.

WASHINGTON, Oct. 20.—Admiral Schley has been, by orders from the navy department, placed in command of the naval station at San Juan de Porto Rico. So far the department has no knowledge of the value of the naval property contained in this station when it was evacuated by the Spanish officials.

Admiral Schley has requested that he be permitted to remain in service for a time two or three civilian employes who are now connected with the station. This has been granted.

It is the intention of the department to send another naval officer to relieve Admiral Schley of the command very soon and to maintain a permanent station at this most important strategic point in the south.

FIGHTER DIES OF INJURIES.

Andy Dupont Arrested Charged With the Murder of William Walker.

OMAHA, Neb., Oct. 22.—William Walker, the prize fighter who was knocked out by Andy Dupont, of Kansas City, last Monday night, died last night of his injuries.

He was hit a terrific blow on the point of his jaw, which fractured the bone and penetrated his brain.

Dupont was arrested and is locked up in jail charged with murder.

The fight was witnessed by the South Omaha city officials, and the law makers all participated in a prize fight fiddle fairly with the principals, and make only officers a felony regardless of results.

Boston Sharp, of St. Louis, is in the city visiting his friend, Steve Smitzman, of 128 Randall. Mr. Sharp has been attending the peace jubilee in Chicago and is returning home via Fort Wayne.

Mrs. F. Fromton left this morning for Chicago, to attend the peace jubilee and to visit friends. She will be absent two weeks.

DENS OF INIQUITY.

Mayor Scherer Will Put a Stop to Their Nefarious Work.

Houses of Ill-Repute Scattered Over the Business District of the City—Police News.

Mayor Scherer is after the houses of ill-repute scattered about the business district of the city. To a SENTINEL reporter this morning he said he was determined to put a stop to their nefarious practices and compel them to move. For months there has been complaint of these houses and in one square in a down town street no less than seven places are conducted by immoral women. Mayor Scherer has taken a decided stand in this matter, and while he does not desire to drive the social evil can be entirely wiped out he is at least determined that it shall not be allowed to flourish on the business streets of the city. The raids made Sunday evening are only the commencement of what the police intend to do until the down town district is completely rid of the low dives. Whether located above a saloon or any other business house Mayor Scherer says the places must go.

POLICE NEWS.

The proprietor of the I. X. L. restaurant and boarding house reported to the police this morning that last night a thief had invaded the back yard of the boarding house and stole six bed blankets which had been left hanging on the clothes line.

Three train climbers, arrested by Pennsylvania railway detectives, were in police court this morning. Mayor Scherer fined them and then suspended the fine provided they left the city immediately.

Superintendent Gerhing has received a letter from H. A. Cramer, of Sparta, Mich., in which Mr. Cramer says he can not afford to send for his son and requests the superintendent to take good care of him.

The officers believe that Charley Turner, who is serving twenty days for vagrancy, is wanted in connection with the jewelry robbery. He was photographed and will be taken and sent away for identification.

MORE WIRES DOWN.

Board of Works Orders Them Removed From Three Streets.

Preparing to Do Some Curbing Next Season—Will Tonight Hear Objections to Improvements.

The board of public works has instructed City Attorney Shoaf-nagle to draw up an ordinance compelling the removal of all poles and wires on Columbia street from Calhoun to Barr, on Main street from Maiden Lane to Barr and on Clinton street from the Nickel Plate railway to Washington. It is the intention of the board to have these streets paved next summer and the notice for removal of poles and wires is given thus early that the company may have plenty of time to build conduits and place the wires underground.

MUNICIPAL NOTES.

The board of public works will tonight hear objections to the assessment rolls and pavement for that part of Calhoun street from Superior street to the south line of Main street. Objections will also be heard to the grading and paving of the alley between Maumee avenue and Oak street from Division street to Chute street.

The comptroller is still collecting the vehicle tax and this morning Officer Krock brought in a driver of an express wagon, who was compelled to settle. More than $7,300 has already been collected and this fund will insure clean streets next spring and summer.

COLORED KNIGHTS.

THANKFUL TO MRS. PINKHAM.

Earnest Words From Women Who Have Been Relieved of Backache —Mrs. Pinkham Warns Against Neglect.

DEAR MRS. PINKHAM:—I have been thankful a thousand times since I wrote you, for what your Vegetable Compound has done for me. I followed your advice carefully, and now I feel like a different person. My troubles were backache, headache, nervous tired feeling, painful menstruation and leucorrhœa.

I took four bottles of Vegetable Compound, one box of Liver Pills, and used one package of Sanative Wash, and am now well. I thank you again for the good you have done for me.—ELLA E. BEWLEY, East Rochester, Ohio.

Great numbers of such letters as the above are constantly being received by Mrs. Pinkham from women who owe their health and happiness to her advice and medicine.

Mrs. Pinkham's address is Lynn, Mass. Her advice is offered free to all suffering women who are paralyzed about themselves.

If you have backache don't neglect it or try heedlessly to "work it down," for it may mean the root of the trouble, and nothing will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Backache is a common guide by a lot of other aches and wearying sensations, but they nearly always come from the same source. Remove the cause of these distressing things, and you become well and strong. Mrs. S. J. SWANSON, of Gibson City, Ill., tells her experience in the following letter:

"DEAR MRS. PINKHAM:—Before using your medicine I was troubled with headache and my back ached so that I could not rest. Your medicine is the best I have ever used; it has relieved me of my troubles, and I feel like myself again.—Thanks to Lydia E. Pinkham."

I would advise any one troubled with female weakness to take your medicine. I shall also recommend it wherever I can as a great reliever of pain."

A Million Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine.

SPECIAL TRAINS.

The Pittsburg Has Four on the Western Division.

Switchman John Shores Meets With an Accident—No More Sunday Excursions This Year.

The Pennsylvania company is today doing a big business in the way of running special trains, there being four on the western division of the Fort Wayne line. The first one carried General Shafter from this city to Van Wert and thence to Lima, where his car was turned over to the Cincinnati, Hamilton and Dayton. General Shafter's car followed a pair of mail train No. 6 from Chicago to this city, where it was put out and sent on as a special. His coming was not known in time for any demonstration and there were none but the depot attaches and some travelers at the station when the general arrived. A private car carrying Postmaster General Charles Emory Smith was also a part of No. 6.

The next special out was the pile driver train, which went down to Columbia City where it will be engaged for several days.

The third special is that of W. McG. Grafton, superintendent of signals and interlocking switches, which left Crestline, westbound, at 2 o'clock this afternoon and is due here at 6:30. Following this train, an hour later, will be the special bearing President Lanier and Consulting Engineer Spencer, of the Pittsburg, Fort Wayne and Chicago company, who are making their semi-annual inspection of the property. Both of these trains will remain here over night and leave for Chicago at 8 o'clock tomorrow morning.

MIS HAND PERCHED.

John Shores, a switchman in the east yards, had the misfortune to get his right hand between the bumper heads when attempting to make a coupling. The bone of the second finger and one of the metacarpus were broken. The injury is painful and will probably keep the man from his work for some weeks, yet no serious results are apprehended. Dr. George C. Stevens attended Mr. Shores, who was taken to St. Joseph hospital.

NO MORE SUNDAY EXCURSIONS.

The Wabash has followed the example of the other roads in the matter of Sunday excursions and announcement that there will be no more of them on that line this year. Therefore, train No. 12, Toledo to Peru, which was put on for the purpose of carrying the excursionists home, has also been taken off the road.

THE ROCKING VALLEY AFFAIR.

BAGNAW, Mich., Oct. 20.—Rumors are current here to the effect that a deal is in progress whereby the Flint and Pere Marquette railroad may become the property of the Rocking Valley system. The presence here of Ohio and Eastern railroad magnates gives color to the rumor. Among them are: W. W. Crapo, president of the Flint and Pere Marquette, of New Bedford, Mass.; N. Monserrat, of Columbus, O.; J. W. Ellsworth, of New York; O. W. Cook, of Boston; Lewis Pierce and T. Morris, of Portland, Me. About two months ago it was reported that Thomas D. Ryan, president of the Rocking Valley Coal Co., was negotiating to consolidate these two systems for the purpose of getting a line to the Saginaw Valley coal fields, in which the Ohio magnate holds coal options on several thousand acres. J. W. Ellsworth, business partner of Mr. Ryan, was recently elected a director of the Michigan road.

General and Local Gossip.

W. F. Hay, a laborer in the east shops, is sick.

Nickel Plate Brakeman A. Bailey is sick and off duty.

Blacksmith Casper Lehmkuler, of the Pittsburg shops, is sick.

Thomas O'Rourke, of the electric works, is looking after some private business at Bluffton.

Randolph Bilgeman, of the Wabash shops, reports a pretty new baby girl at his home.

E. R. Brown, a car builder employed in the east shops, is off duty on account of sickness.

G. W. Talley, night foreman at the Pittsburg round house, is off duty on account of sickness.

Brakeman A. F. Young, of the Nickel Plate, is taking a lay off to look after some private affairs.

J. Bailey, of Nevada, Ohio, is visiting his son, L. G. Bailey, clerk at the Pittsburg machine shop.

While at work yesterday, H. Trosin, a Pittsburg car repairer, fell and severely injured his back.

The electric works today sent a 100-light arc dynamo to Baltimore, Md., and a motor to Stanford, Conn.

J. B. Ryan and F. M. Jamey, firemen on the Pittsburg, are sick and unable to go out on their runs.

The Pittsburg and Lake Erie is expending $100,000 for electric pneumatic block signals along its line.

T. B. Hunt, general foreman of the Pennsylvania shops at Chicago, was here today on business for the company.

At a meeting of the Chicago, Burlington and Quincy railroad directors yesterday J. Malcolm Forbes, son of the late John M. Forbes, was chosen a director and John L. Gardner was chosen chairman of the board. Mr. Gardner was first elected a director in 1878.

The Fort Wayne thus company is having a 200-light Wood dynamo placed in its power station at Bluffton.

Machinist E. S. Turner, of the Pittsburg, who had a hand hurt a week ago, was able to resume work this morning.

George Harsh, Nickel Plate conductor, has returned from Fostoria, Ohio, where he attended the funeral of his mother.

Michael Maloney, the sick watchman, was taken to St. Joseph hospital yesterday. His condition remains most critical.

George Schwartz, foreman of the car inspectors at the east yards, has returned from Laporte, Ind., where he visited friends a few days.

Two of the Findlay, Fort Wayne and Western's passenger cars went into the Pennsylvania shops this morning for repairs and repainting.

Ernest Bonjour and Jacob Krookenberger, the former a boilermaker and the latter a helper, took positions in the Bee works this morning.

A special on the Baltimore and Ohio on Saturday made the run from Chicago to Washington in twenty-one hours and eighty minutes.

Foreman William Knight, of the car building department of the east shops, has returned to his duties after a two weeks' vacation, spent in Michigan.

Charles Stolbs and Herman Regel, machinists at the Bee works, have returned home. The former was at Chicago and the latter at Vincennes on business for the company.

There is sickness in the family of J. Palmer, which keeps him from his duties in the east car shops. One of his children has typhoid fever. Mr. Palmer is a car builder.

Nickel Plate Engineer George Dunann left yesterday for Buffalo to join and accompany his aged mother to her home in Chicago. She will stop here and visit a few days.

The Montreal Witness, in speaking of what General Manager Hays, who left the Wabash to go to the Grand Trunk, has accomplished, praises him for introducing American methods of railroading on that system.

William Wahrs, assistant foreman of the Pittsburg planing mills, and his wife went down to Columbia City this morning. Mr. Wahrs will go to Hills, Baling and Bunting, and incidentally visit relatives.

In September 328 roads earned $44,959,855, an increase of $3,700,-815 over September, 1897. Since July 1 the same roads have earned $317,398,403, an increase over the corresponding period of 1897 of $37,485,394.

Engineer Bert Crosby and Fireman W. Kohlbach and G. W. Conkling, of the Nickel Plate, are on the off duty list. Mr. Conkling accompanied his family to Chicago to see the peace carnival and visit friends two or three days.

On roads in the Central Traffic association reduced rates will be made for Thanksgiving day for the first time in the history of the roads. Tickets sold on November 24 will be good to return on the 25th, the reduced rates applying to points within a limit of 160 miles.

Travel on the Nickel Plate is so heavy that all the passenger trains have to run to three extra coaches. No. 5, last evening, ran in two sections. Freight business is also very good on the road. The extra train that has 30 crabooses for complaints on account of work now. The rest will be old 90.

The large passenger engines on the Pennsylvania, with eighty-inch driving wheels, are making great records for speed with heavy trains, between Altoona and Jersey City, often with ten to twelve cars in the train, taking a seventy-mile-an-hour pace and maintaining it for a considerable distance.

Thomas Manitee, one of the oldest engineers in time of service on the Vandalia, who was dismissed after the accident to the train carrying delegates to the Young People's Christian Endeavor convention whom oh route to California, shortly after secured a position on the Wabash, and the trainmaster's report on the Wabash credits him with the best work with a compound engine, he with engine 71 hauling 1,845 tons of freight.

W. Rohling, night car repairer at the east shops, is at work again, after a visit of a few days with friends in Lima.

It is stated that the Pennsylvania lines carried 82,498 passengers to Pittsburg last week to the Knights Templar meeting.

On November 1 the Chicago and Alton will inaugurate a new fast limited train from Chicago to southern California, to be known as the Pacific Coast limited, running over the Chicago and Alton railroad, the Iron Mountain, the Texas Pacific, to El Paso, and the Southern Pacific to Los Angeles. The trains will leave Chicago on Tuesday and Saturday of each week.

The Pennsylvania company is building at its shops in Columbus five elegant coaches for the Panhandle and five for the Pittsburg, Fort Wayne and Chicago, and two combination coaches which are to be put in service between Louisville and Chicago, via Indianapolis. The coaches are wide vestibuled, with plate-glass windows, with a smoking compartment like that of the Pullman cars.

STRIKE AVERTED.

St. Louis, Oct. 20.—It was learned today that a strike of engineers and conductors on the Missouri, Kansas and Texas railroad, over the question of reinstating three discharged conductors, has been averted, the company agreeing to take back two of the men. After a secret conference between the employes' committee and railroad officials, ending late last night, the latter at first refused to accede to the demand that the conductors be restored to work. The trainmen then threatened to call an immediate strike of the conductors and engineers.

Another conference was held, the company finally agreeing to let all but Conductor Knock return to their old places. This satisfied the grievance committee.

SAW MANY CHANGES.

I. Hyerman Visits the Scenes He Left Fifty-eight Years Ago, in Pennsylvania.

I. Hyerman, of Oak Grove, on the Goshen road, has returned from a visit to his old native home in Pennsylvania. Of all the associates he had when he left there so many years ago he found but two persons living, but their children and grandchildren had grown up and greeted him with most cordial friendship. He also visited a neighborhood twenty miles away from his old home, a place where he lived for years with several cousins in 1840, during the hard cider and log cabin campaign of General Harrison and Martin Van Buren. He found but two persons living of those he left fifty-eight years ago. These incidents make one reflect on the course of events.

May Hemminger thus disappeared, and it is believed that she went with Nick Lorain, with whom she was keeping company. The girl was arrested two weeks ago on request of her mother, but a Lafayette lady interfered in her behalf, and the mayor allowed May to go on a promise of good behavior.

TWO GRATEFUL WOMEN

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

"Can Do My Own Work"

Mrs. Patrick Dabney, West Winsted, Conn., writes:

"Dear Mrs. Pinkham:—It is with pleasure that I write to you of the great benefit I have derived from your wonderful Vegetable Compound. I was very ill, suffered with female weakness and displacement of the womb.

"I could not sleep at night, had to walk the floor, I suffered so with pain in my side and small of my back. Was troubled with bloating, and at times would faint away had a terrible pain in my heart, a bad taste in my mouth all the time and would vomit between, thanks to Mrs. Pinkham and her Vegetable Compound, I feel well and sleep well, can do my work without feeling tired; do not bloat or have any trouble whatever.

"I sincerely thank you for the good advice you gave me and for what your medicine has done for me."

"Cannot Praise It Enough."

Miss Gertie Dineen, Franklin, Neb., writes:

"I suffered for some time with painful and irregular menstruation, falling of the womb and pain in the back. I tried physicians, but found no relief.

"I was at last persuaded to try Lydia E. Pinkham's Vegetable Compound, and cannot praise it enough for what it has done for me. I feel like a new person, and would not part with your medicine. I have recommended it to several of my friends."

BAUR BAN'S

GLASS BLOWERS.

Large Crowds Watch Them in Their Interesting Work of Art.

Bachman's glass blowers, who are giving an exhibition in the Trentman block, on Calhoun street, are most interesting workers to watch. Their work is truly that of artists. They form all sorts of things out of glass and even go so far as to make glass dresses out of thread. See cut. Several patterns are on exhibition in the room which they occupy.

Another exhibit which is of great interest is an engine such as is used on board of steamboats. It is made entirely of glass and during exhibition hours puffs and steams away at a merry gate. The engine is a subject for study and never fails to attract great attention.

An exhibition is going of how fine glass can be spun. After the glass passes through it is as thin and fine as the smallest strand of silk. Last night the exhibition was witnessed by many people and they all went away being highly pleased with what they saw and received every visitor being presented with a present of some kind.

Mr. and Mrs. Mason Long have gone to Chicago and Omaha.

Miss Lizzie Cudewallador is visiting friends at Crestline, Ohio.
